

**QUAIL CREEK COMMUNITY FACILITIES DISTRICT  
RESOLUTION NO. 12**

---

A RESOLUTION OF THE QUAIL CREEK COMMUNITY FACILITIES DISTRICT (CFD) OF SAHUARITA, ARIZONA, AUTHORIZING THE PURCHASE OF SERVICES WITH 3D/INTERNATIONAL, INC, THROUGH MOHAVE EDUCATIONAL SERVICES COOPERATIVE, TO CONSTRUCT QUAIL CREEK PARK IN THE AMOUNT OF ONE MILLION THREE HUNDRED AND EIGHTY TWO THOUSAND FIVE HUNDRED AND ELEVEN DOLLARS (\$1,382,511).

WHEREAS, the District has previously authorized the construction of a community park with Community Facility District funds in the Quail Creek area, and desires to move forward with the construction of said park; and

WHEREAS in order to move forward with the park construction, the District requires the services of a qualified firm to render construction services; and

WHEREAS, the District Purchasing Policy of the Quail Creek Community Facilities District's bylaws allows the District Board of Directors to award contracts without a formal bidding process if said contract is made by, through or with the State of Arizona or its political subdivisions; and

WHEREAS, Mohave Educational Services Cooperative has already established contracts with qualified firms that are duly registered and licensed for construction services pursuant to the laws of the State of Arizona for its members and such firm are qualified and willing to provide such services; and

WHEREAS, the Quail Creek Community Facilities District has become a member of the Mohave Educational Services Cooperative and entitled to all benefits and services of the cooperative procurement process available to membership; and

WHEREAS, the District Manager is of the opinion that a separate bidding process is not likely to result in a lower price for construction services with equivalent specifications; and

WHEREAS, the District has identified 3D/International, Inc. as a qualified firm that has a contract with Mohave Educational Services Cooperative to render these services, and one of the principals of said firm is duly registered and licensed as a Contractor in the State of Arizona pursuant to the laws of the State of Arizona, and the District is securing the services of 3D/International, Inc.

pursuant to the terms of 3D/International, Inc.'s contract with Mohave Educational Services Cooperative (Mohave Contract 04E-3D2-09-01) and such firm is qualified and willing to provide such services; and

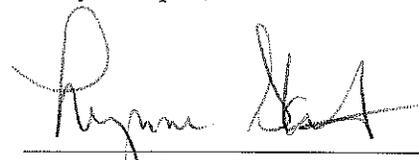

WHEREAS, the District has authorized \$1,382,511 in the Fiscal Year 2007/08 CIP budget for the building of Quail Creek Park; and

WHEREAS, the District has allocated funds sufficient to enter into a purchase agreement with 3D/International, Inc., as set forth in Exhibit A," a form of which is attached hereto, and desires to enter into the proposed purchase.

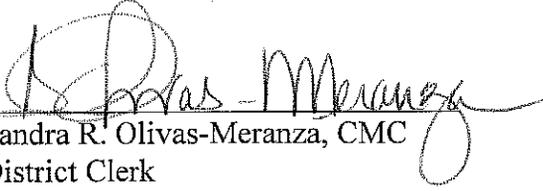

NOW, THEREFORE, BE IT RESOLVED by the Chairperson and Board of Directors of the Quail Creek Community Facilities District of Sahuarita, Arizona, as follows:

- Section 1.** The District is hereby authorized to enter into an agreement with 3D/International, Inc., through Mohave Educational Services Cooperative, a form of which is attached hereto as Exhibit "A" and incorporated herein by this reference.
- Section 2.** The Chairperson of the Board of Directors is hereby authorized and directed to execute said Agreement on behalf of the Quail Creek Community Facilities District, and the District is hereby authorized and directed to take all steps necessary to implement said Agreement and give it effect.
- Section 3.** The various District officers and employees are authorized and directed to perform all acts necessary or desirable to give effect to this Resolution and sections of the Community Facilities Districts bylaws.
- Section 4.** All resolutions, or motions and parts of resolutions or motions of the District in conflict with the provisions of this Resolution are hereby repealed, effective as of the effective date of this Resolution All internal references within the sections of the Community Facilities Districts bylaws to any affected provision are hereby updated.
- Section 5.** If any section, subsection, sentence, clause, phrase or portion of this Resolution is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions thereof.

PASSED AND ADOPTED by the Chairperson and Board of Directors of the Quail Creek Community Facilities District of Sahuarita, Arizona, this 14<sup>th</sup> day of April, 2008.

**Re: Fee Proposal for: Quail Creek Park Construction, Sahuarita, AZ**

Dear Ken:

Per your request, 3D/I is pleased to present its fee proposal to provide construction services for the Quail Creek Park project.

Our total fee for this work is **One Million Three Hundred Eighty Two Thousand Five Hundred Ten and 81/100 Dollars (\$1,382,510.81)**, including the Mohave Administrative fee. The fee has also been compiled per the accepted contracted coefficient.

Please find our attached Scope Exhibit Estimate Worksheet which itemizes and details this fee for you according to Mohave purchase order requirements. We look forward to working with you and would like to begin work on this project as quickly as possible.

**3D/I**

Thank you for the opportunity.  
Sincerely,

Mark Anderson  
Project Manager

Attachments: Scope of Work, Estimate Worksheet, reduced size drawings for clarification of phase 1 scope.

## Scope of Work Quail Creek Park Construction

### DIVISION 1 – GENERAL REQUIREMENTS

#### 1. DESCRIPTION OF THE WORK:

- A. This project consists of constructing phase 1 of the Town of Sahuarita Quail Creek Park located at 1905 S. Old Nogales HWY Sahuarita, AZ, as described in the plans and specs from Olsson Associates dated February 7, 2008 and as modified by 3D/I, The Quail Creek Facilities District and Olsson Associates during the estimating / value engineering sessions.
- B. During the design phase of the park, construction cost estimating was provided to design the park within the budget. The plans may show structures and amenities that will be built in a future phase but will not be included in phase 1. Items not included in phase 1 are indicated by a cross hatch on the plans with a note "Work not included in phase 1". Detail drawings may indicate work not included in phase 1, refer to the plans and this scope of work for clarification. Work listed in the specifications that is not included in phase 1 are listed in the exclusions in the scope of work.
- C. The project will be constructed through the Mohave Educational Services Job Order Contracting Program.
- D. Major components of the Phase 1 park construction include grading a site of approximately 6.4 acres in size (currently open field/pasture land); Storm Water Pollution Prevention Plan requirements; entry road; highway deceleration lane; parking area; landscaping; irrigation from reclaimed water; potable water for drinking fountain and dog fountains; three (3) light poles, electrical service entrance and cabinets; irrigation controller; empty conduit for future phases; two (2) fenced dog parks; playground area with equipment; sidewalks; two (2 ) ramada's at the dog park, bike racks and park benches.

**3D/I**

#### 2. CLARIFICATIONS

- A. Metered construction water will be available, for dust control and compaction, from a 6" reclaimed water irrigation line at the north end of the site. Subcontractor will provide a 6" TEE connection on the irrigation line for accessing construction water during the project.
- B. Water fees paid by the Quail Creek Facilities District.
- C. Domestic water meter paid by the Quail Creek Facilities District.
- D. Utility cost paid by the Quail Creek Facilities District.

E. Permitting fees paid by the Quail Creek Facilities District.

### 3. EXCLUSIONS

The following listed items found in the Technical Specifications, are excluded in Phase 1.

#### A. SPECIAL CONDITIONS – SECTION 01100

##### I. Sub Section 2.02 (Exclude Items Listed)

1. Security Lighting for Ramada's
2. Picnic Tables
3. BBQ'S
4. Basketball & Football/Soccer Goals
5. Playground Shade Structures
6. Football/Soccer Fields
7. Parking Area Lights
8. Granite Paths

##### II. Sub Section 3.01 (Exclude Sentence Listed)

1. "Payment for warrantee work shall be charged against money retained and if this amount is not sufficient, the contractor and his sureties will hereby agree to pay the owner for the cost of the work."

##### III. Sub Section 5.01 (Exclude Sentence Listed)

1. "Only one overhead and profit percentage will be allowed for each item."

##### IV. Sub Section 7.01 (Exclude all of Sub Section 7.01)

#### B. DECOMPOSED GRANITE AND FRACTURED ROCK SURFACES – SECTION 02922

##### I. Sub Section 4.01 (Exclude all of Sub Section 4.01)

#### C. HYDROSTOLONIZED TURF – SECTION 02936

##### I. Sub Section 3.03 (Exclude all of Sub Section 3.03)

#### D. TREES, SHRUBS & GROUNDCOVERS – SECTION 02950

##### I. Sub Section 1.05 (Exclude all of Sub Section 1.05)

##### II. Sub Section 3.05 (Exclude all of Sub Section 3.05)

##### III. Sub Section 3.07 (Exclude all of Sub Section 3.07)

#### E. Landscape Establishment Period – SECTION 02960 (Exclude all of SECTION 02960)

**B. SUPPLEMENTARY CONDITIONS PROPOSED TO APPLY WHEN CONTRACTED.**

1. Performance and payment bonds will be provided for this project, unless specifically waived by our organization. In order to be waived, the total project cost must be lower than the current Arizona competitive bidding threshold.
2. All County, State taxes, Contractor's liability and builders' risk insurance is included. (Verification of applicable taxes is required).
3. Project billing includes progress payments.
4. There shall be no liquidated damages for schedule overruns. Once the work commences, the work shall proceed to completion in a continuous fashion of performance as the project and weather permit.
5. OWNER is responsible for paying all building and floodplain use permit fees including sign permit fees if applicable. Contractor will pay for grading and dust control permits and applicable permits for right-of-way use, traffic control and PDEQ/ADEQ.
6. This Scope of Work **excludes** the testing, removal and disposal of any hazardous materials contained on site. It will be assumed that OWNER has remediated all hazardous materials prior to the start of this Scope of Work. Costs for stopping work once commenced due to the presence and removal of any hazardous material will constitute a Change to this Scope of Work.
7. The project construction has an expected duration of three to four months and an estimated start date of June 2008.
8. OWNER is responsible for all materials testing and code inspections.
9. OWNER is responsible to provide water for construction purposes from the beginning of the site work and up to substantial completion.
10. OWNER is responsible to provide temporary electric service for construction purposes from the beginning of the site work and up to substantial completion.
11. 3D/I will receive from OWNER any "as-built" drawings representing the site utilities and buildings that are relevant to the work. These "as-built" drawings shall provide the appropriate and complete information for 3D/I to establish proper baseline layout of the elements as described in the description of the work.
12. Submittals. 3D/I shall coordinate with OWNER and in agreement with a pre-determined schedule, submit minimum materials, product data and samples for OWNER review and acceptance. Any submittals requiring OWNER review and acceptance shall be returned to 3D/I within 7 days of submittal. Failure to return reviewed submittals within 7 days may constitute additional delays and cost impacts to be paid by OWNER.
13. RFI's. 3D/I may from time to time, submit requests for information to perform the contract work. OWNER review and response shall be within 3 days. Failure to respond to the RFI within the 3 day period may constitute additional delays and cost impacts to be paid by OWNER.
14. The construction work will occur during normal business hours.

## Mohave Educational Service Cooperative Contract Award Documentation

Mohave assists members with purchase verification. However, it is the member's responsibility to independently verify that quotations and purchase orders comply with the terms of the award of a contract or procurement. This responsibility is set by rule and statute, and cannot be changed by Mohave. Mohave has prepared files to assist members with due diligence reviews of our contracts compliance with applicable rules, regulations and statutes. These files include the following:

### CONTENTS

---

- **Response Summary (Note, some items apply to the RFQ and the RFP)**
  - Offer and Contract Award
  - Award Notification
  - General Terms and Conditions Acceptance Form
  - Special Terms and Conditions and Scope of Work and Specifications Acceptance Form
  - Questionnaire for Offeror (Appendix B)
  - Support and Maintenance Plans (Appendix C)
  - Manufacturer's Representative Information, References and Business Ownership (Appendix D)
  - Telecommunications Systems Compliance Worksheet (Appendix E)
  - Information Systems Compliance Worksheet (Appendix F)
  - Award Recommendation and Approval
  - Score Sheets
  - Bidders List

Revised 3-25-05, JJB

Mohave Contract 04E-3D2-0901

3D/International

**Agreement to amend terms and conditions to allow direct ordering.**

Mohave Educational Services Cooperative, Inc. (Mohave) desires to allow Members to place Mohave approved purchase orders made out to 3D/International and allow Members to make payments directly to 3D/International. In order to do so, it is necessary to modify the terms and conditions of contract 04E-3D2-0901. Below is a list of removed, revised and additional terms and conditions.

**The following terms and conditions are removed:**

**ORDER CYCLE** (page 10)

**Backorder reports:** Mohave will send Contractor a backorder report on a periodic basis. Contractor agrees to reply to information requests in a timely fashion.

**PAYMENT** (page 12)

**Payment discounts:** Any payment discount must be made directly to Mohave and not to member receiving the materials or services.

**RETENTION** (page 22)

**Retention requirement:** Ten percent of all contract payments shall be retained by the Member as insurance of proper performance of the prime contractor. Prime contractor agrees to identify the amount to be retained on invoices to Member for each progress payment

**The following terms and conditions are revised:**

**OFFER AND CONTRACT AWARD** (page 2)

The Contractor shall not commence any billable work or provide any material or service under this contract unless and until Contractor receives a purchase order from Member with Mohave's approval noted.

**CANCELLATION** (page 3)

**Cancellation for non-performance or Contractor deficiency**

*(Last two bullet points are changed to read)*

- Performing work or providing services under the contract prior to receiving a Mohave approved purchase order for such work; and/or
- Accepting non-Mohave approved purchase orders.

**FORM OF CONTRACT** (page 7)

**Form of contract:** The form of contract for this solicitation shall be the Request for Proposals, the awarded proposal(s) and best and final offer(s), and properly issued purchase orders referencing the requirements of the Request for Proposals. If a firm submitting an offer requires Mohave and/or member to sign an additional contract, a copy of the proposed contract must be included with the proposal.

*(continued)*

**ORDER CYCLE** (page 10)

**Acceptance of orders by Contractor:** All quotations provided to Members must be based on prices in the contract. Contractor may only refuse a Mohave approved order under this contract after providing written documentation acceptable to Mohave describing the circumstances that warrant refusal. Improper documentation and/or frequent refusals may result in contract cancellation.

**Acceptance of orders by Mohave:** This contract is for the sole use of Mohave and its Members. Mohave reserves the right to require Contractor to reject any purchase orders received from Members based on this contract, without cause.

**PAYMENT** (page 11)

**Billing:** All invoices shall list the applicable Member purchase order number. Contractor will invoice Members directly. Late fees are not permitted. All transactions are payable in U.S. currency only.

**Contacting Member about payment:** Contractor may contact Member directly for payment for a product or service delivered to the Member under the contract. Such contact shall be professional and courteous.

**PAYMENT** (page 12)

**Correct billing:** Contractor's invoice must match the purchase order. If discovered, incorrect invoices resulting in excess charges must be corrected by Contractor, no matter the cause of the error. Any excess payment must be returned to Member within thirty (30) days, in the form of a check or credit memo, as determined by the Member.

If a Member is invoiced at less than contract prices, contract vendor will invoice the Member for the difference unless Mohave approves the undercharge.

If contract pricing in effect on the contract has gone down between the time of the order and the invoice date, vendor may invoice at the current contract price.

**Credit hold:** Contractor agrees to advise Mohave's Accounting Manager of a Member(s) being placed on credit hold, within five (5) days of the action.

**Payment time:** Payment terms are Net thirty (30) days from receipt of Contractor's invoice.

**Progress payments:** Mohave will permit Members to make progress payments under the following conditions: 1) Member and Contractor agree to the terms of the progress payments prior to issuing a purchase order; 2) the purchase order describes the amounts/percentages to be paid and the dates/frequency of payment; 3) Member accepts responsibility for verifying the validity of each payment application; 4) payments are made only after goods and/or services are verified; and 5) any such payments be made in full compliance with Member's local governing entity rules and any and all other applicable state rules and regulations.

**Contractor invoice:** Contractor shall invoice Member after delivery of goods and/or services. Goods and services shall be invoiced at applicable contract prices, which include Mohave's 1% administration fee. Invoices must show Mohave contract number.

(continued)

Agreement to amend terms and conditions to allow direct ordering, page 3  
Revised terms continued

Contractor shall invoice Member for the item cost(s) including Mohave's administration fee. Applicable sales tax must be figured on the subtotal minus Mohave's administrative fee; calculated at .0099% of the original subtotal amount. The Mohave administrative fee shall not be calculated on ancillary charges. (E.g. performance bonds, shipping, sales tax, Per Diem, permits, etc.)

Contractor will invoice Members only for items under contract.

**Contractor payment:** Member shall issue payment to vendor after receipt of invoice.

**TAXES** (page 16)

**Indian reservation or tribal tax:** If goods or services are subject to Indian reservation or tribal tax, Contractor shall include such taxes as a separate item on the original invoice to the Member.

**Payment of taxes:** Member is responsible for payment for all taxes listed on the invoice. Contractor is responsible for collecting such taxes and shall forward all taxes to the proper revenue office. Installation of equipment which becomes permanently attached to a structure is taxable as a contracting activity. [R-15-5-708 (A)]

Sales tax must not be charged on Mohave's administration fee.

**Pre-tax prices:** Prices shall not include applicable state and local taxes. All applicable taxes must be listed as a separate item on all invoices and will be paid by member issuing the purchase order.

**CHANGE ORDERS** (page 18)

**Change order requirement:** Change orders are to be avoided if possible since they often indicate poor planning. A mutually agreed upon system for establishing changes must be identified, including changes in scope and changes in compensation for the prime contractor. Because of cost, safety, and scheduling considerations, the ability to make field change orders needs to be permitted and mutually agreed upon paperwork to document these changes must be allowed. A change order that increases the contract amount in excess of \$15,000 or five percent of the contract amount, whichever is greater, must be approved in writing by the governing board of the Mohave Member. A copy of the approval must accompany a revised purchase order. Any revision that increases the cost of the project is not permitted without a Member revised purchase order. The revised order must be approved by Mohave. Upon approval, the revised order will be forwarded to the contractor. Minor changes mutually agreed between the Member and the prime contractor that do not involve compensation may be made without informing Mohave, unless such change significantly modifies the scope and needs to be documented.

**CONSTRUCTION SCHEDULE** (page 19)

**Schedule adjustment:** The Mohave Member retains the right to extend the schedule of work or to suspend the work and to direct the prime contractor to resume work when appropriate. The agreement must describe an equitable adjustment for added costs caused by any suspension. Any increases will be invoiced, as allowed in the agreement.

(continued)

**PROGRESS PAYMENTS** (page 21)

**Progress Payments on Construction:** R7-2-1115 allows for progress payments to the contractor of construction if the contractor agrees to adhere to ARS §41-2577 (B) (D) (F). All progress payments must be invoiced to the Member; it is the responsibility of the Mohave Member to review and approve any estimates of work completed. If the Mohave Member issues a written statement to the bidder that the estimate of work is not approved and certified, the Member may withhold an amount from the progress payment the Member reasonably expects to incur in correcting the deficiency set forth in the written finding, as permitted in R7-2-1115 (A). In such cases, the bidder agrees to hold Mohave harmless for any deficiency of payment.

Progress payments may be made to the prime contractor on the basis of a duly certified and approved estimate of work performed during the preceding month. The prime contractor must agree to pay any subcontractors or material suppliers within seven days of their receipt of the progress payment, unless otherwise agreed on in writing between the parties.

**The following terms and conditions are added:**

**Audit of Contract Activity:** Mohave will audit some of the purchases made under this contract. The Contractor agrees to provide all documentation necessary for Mohave to audit purchases made under contract including invoices, credits and statements issued to Members.

**Reporting and Payment of Administration Fees to Mohave:** The Contractor agrees to provide a Usage and Reconciliation Report detailing activity under the contract, and payment for Mohave administration fees for invoices paid in the previous month. Items in the report must include Member names, PO numbers, amounts, administration fees, invoice numbers, and credit/return information for all paid invoices in the prior month. Payment and report are due as per a schedule agreed upon by Mohave and Contractor. The initial due date shall be the 10th of the following month. If no invoices were paid under the contract in the previous month, the Contractor will provide notice of no activity.

**Orders in process:** Member purchase orders dated on or before the contract cancellation and/or expiration date will be processed and are considered valid until order fulfillment, or cancellation by the Member.

**Price quotations:** All price quotations based on this contract shall include the correct Mohave contract number.

**Order cycle overview:**

1. Members forwards purchase orders to Mohave. Vendor is 3D/International.
2. Mohave emails Member order to 3D/International.
3. 3D/International provides product/services.
4. 3D/International invoices Member.
5. Member pays 3D/International.
6. 3D/International sends Usage and Reconciliation Report to Mohave.
7. 3D/International remits administration fee monthly, based on invoices paid.
8. Mohave audits selected purchases.

**Quick pay discounts:** Quick pay discounts may be offered directly to Members, provided they have received the materials or services, and that such discounts are available equally to all Members. Mohave must approve such discounts, in writing.

(continued)

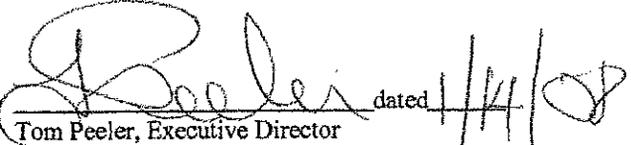

Agreement to amend terms and conditions to allow direct ordering, page 5  
Revised terms continued

Any other references to Mohave issuing purchase orders to Contractor, or Mohave paying vendor on Member direct orders are hereby removed.

This agreement supercedes any previous information or requirements regarding the terms and conditions noted. This agreement is for all Mohave Members and is effective January 1<sup>st</sup>, 2008.

Signature below indicates agreement to modifications as listed.

## Extension of Contract (Page 2)

3D/International 04E-3D2-0901

At contract extension time, we are asking you to examine your contract record on page one carefully and review your contract description on our "Product/Vendor Finder" page at [www.mesc.org](http://www.mesc.org).

If you find that you need to make any corrections, please call Craig A. McKee at (928) 718-3201 or email [craig@mesc.org](mailto:craig@mesc.org).

### Pricing Update:

Please check the applicable lines below:

I have attached my pricing update and/or new catalogs.

Our contract has fixed prices. We agree to hold the current prices until the next anniversary.

Our contract has percentage off retail pricing. The current price lists/catalogs are still applicable. We will provide new catalogs as they are issued.

I intend to provide pricing as follows. (explain below)

We will continue providing JOC construction services based on current UPB pricing and coefficients. CCI adjustments will be submitted quarterly. We have attached updated hourly rates for our professional services.

Remember that you cannot quote any new items or new pricing unless and until it has been approved by Mohave. Your pricing on file at Mohave is in effect until we have approved new pricing.

Email is preferred for price updates.  
Please identify any new items you may be proposing.

Justification for Amending Term of Contract for 04E-CENT-0901 and 04E-3D2-0901

Mohave Educational Services Cooperative, Inc. (MESC) desires to allow these contracts to run for a maximum of five years, as outlined in the terms and conditions of Request for Qualifications, 04E-0604.

**TERM OF CONTRACT AND EXTENSION (page 9)**

**Contract period:** It is Mohave's intent to award a multi-term contract for job order contracting. The initial contract term shall be for one (1) calendar year from date of contract award. By mutual written agreement between Mohave and contractor, the contract may be extended for up to two consecutive additional 12-month periods, beginning immediately after expiration of the prior term. However, no contract extension exists unless and until contractor is so notified by Mohave.

Current law limits the maximum length of a job order contract to three years. If applicable law is revised to permit job order contracts to run for a maximum of five years, it is Mohave's intent to amend any job order contract to permit a maximum time of contract not to exceed five consecutive years.

Although the second paragraph above was inadvertently omitted in the terms and conditions of RFP 04E-0813, MESC's intentions were clear: Any contracts awarded would be extended to the maximum allowable time. Only those offerors advanced under the RFQ were issued the RFP, as required under part two of the two-step JOC process. The firms agreed to the terms of the RFQ as listed above, which allowed for a revision based on expected changes to the law in effect at that time. As the applicable law has been revised, we requested that the existing term be revised to allow for two more one-year terms.

**RE: Contract # 04E-3D2-0901 Extension Agreement made by and between 3D/International and Mohave Educational Services Cooperative (MESC).**

In accordance with its terms, Mohave desires to extend contract 04E-3D2-0901 for a period of one year (1) year, beginning 9/1/2006. The extension shall be under the same terms and conditions contained in the original solicitation, 04E-0813, except as outlined on page 2 of this agreement.

Please indicate your desire to extend by completing the appropriate information below. If the contract is extended, 3D/International agrees to provide products or prices as per 04E-0813.

-----  
We desire to **extend** the contract as specified above, and agree to abide by the original terms & conditions, and any attached clarifications.

3D/International 04E-3D2-0901

At contract extension time, we are asking you to examine your contract record on page one carefully and review your contract description on our "Product/Vendor Finder" page at [www.mesc.org](http://www.mesc.org).

If you find that you need to make any corrections, please call Craig A. McKee at (928) 718-3201 or email [craig@mesc.org](mailto:craig@mesc.org).

### Pricing Update:

Please check the applicable lines below:

I have attached my pricing update and/or new catalogs.

Our contract has fixed prices. We agree to hold the current prices until the next anniversary.

Our contract has percentage off retail pricing. The current price lists/catalogs are still applicable. We will provide new catalogs as they are issued.

I intend to provide pricing as follows. (explain below)

*See amended rates per our letter.*

*We will continue with current accepted  
UPB and coefficients as stated.*

*CCI adjustments will be submitted quarterly.*

Remember that you cannot quote any new items or new pricing unless and until it has been approved by Mohave. Your pricing on file at Mohave is in effect until we have approved new pricing.

625 E. Beale Street  
Kingman, Arizona 86401

Re: Extension of Contract # 04E-3D2-0901

Dear Mr. Damaske:

**3D/I**

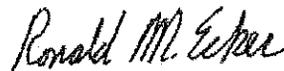

We have reviewed the Contract Extension and are excited to extend our agreement with Mohave Educational Services Cooperative. This letter is provided to clarify our current coefficients and professional services rates in light of market condition changes and escalation over the past year.

All of our coefficients will remain as originally proposed and accepted. The coefficients include: pre-priced items coefficients, non pre-priced items coefficients and Davis Bacon coefficients.

Professional Services labor rates have increased over the past year due to increases in salaries. Therefore we have modified our rates, please refer to the attachment for current rates.

We appreciate the opportunity to continue our relationship with MESC and all the Members that we serve. Please feel free to contact me should you have any questions.

Sincerely,

Ronald M. Ecker, P.E.  
Vice President

9/9/2005

Established in 1953, 3D/I is an employee owned corporation that provides construction services both "at risk" and as an owner advocate.

Our Mountain Region headquarters are located in Phoenix and will be the administrating office. We will provide your clients with personal attention from our local office and do all of the work required for all client's projects in-house.

Our corporate headquarters are in Houston, Texas. We have 14 offices and more than 60 project sites throughout the nation. Our local office has extensive resources to draw upon including more than 600 people nationwide, with broad experience in public sector construction work, as well as in-house developed information technology systems.

## Past Performance

**Well System**

Drilled well, renovated pump and refurbished storage tanks

Schedule - 4 months

Project Cost - \$278,037

Provide a statement of your experience providing construction services particularly in a job order contracting setting.

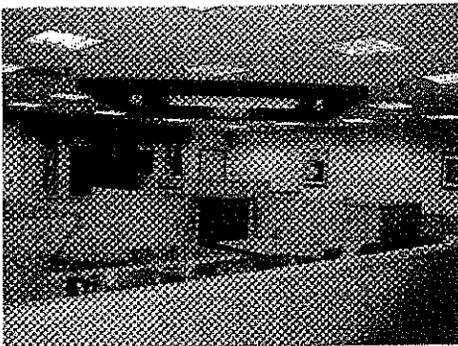

In the past three years, we have put in place \$12.4 million of construction through the JOC delivery method throughout Arizona, and we currently have \$3.6 million under construction. We have completed 120 job orders ranging from minor remodels and tenant improvements to more complicated design-build data centers.

Provide a list of your job order contracts. Include the date of contract, contracting agency, agency contact information, and value of contract for each contract in the list.

### Mohave Education Services Job Order Contract

This Job order contract is based on a coefficient of the RS Means unit price book. The contract has no minimum or maximum dollar limits. The maximum single project value is \$750,000.

Contact Dates	Contracting Agency	Contact	Value of Contract
11/2001 - 8/2004	Mohave Education Services Cooperative	Tom Peeler, CPPB Purchasing Director tom@mesc.org T (928) 718-3205 F (928) 718-3232	Completed \$10,697,150  In progress \$2,135,734

**Courts Building Remodel**

Renovated and remodeled courtrooms, administrative areas, and processing areas.

Schedule - 5 ½ months

Project Cost - \$391,161

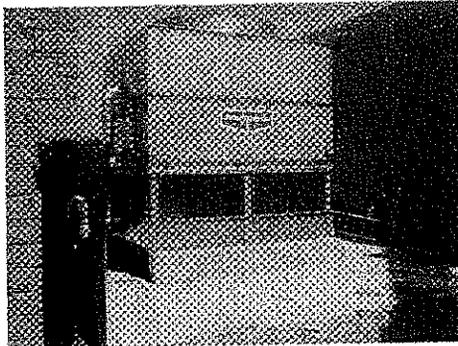

### Arizona State University Job Order Contract

This job order contract is based on a coefficient of the RS Means unit price book. The contract dollar minimum is \$500,000 with no maximum limits. The maximum single project value is \$300,000.

Contact Dates	Contracting Agency	Contact	Value of Contract
4/2003 - 8/2004	Arizona State University	Vance Linden ASC Director vance.linden@asu.edu T (480) 965-1845 F (480) 965-5926	Completed \$1,579,003  In progress \$250,850

**City of Chandler Job Order Contract**

This job order contract is based on a negotiated fee. The maximum contract amount is \$1,000,000. The maximum amount for a single project is \$750,000.

**Cooling Tower Modifications**

Installed a cooling tower to an existing chiller system

Schedule - 4 months

Project Cost - \$482,000

Contact Dates	Contracting Agency	Contact	Value of Contract
1/2004 - 1/2005	City of Chandler	Jim Campbell Senior Engineer James.Campbell@ci.chandler.az.us T (480) 782-3317 F (480) 782-3355	Completed \$0 In progress \$693,000

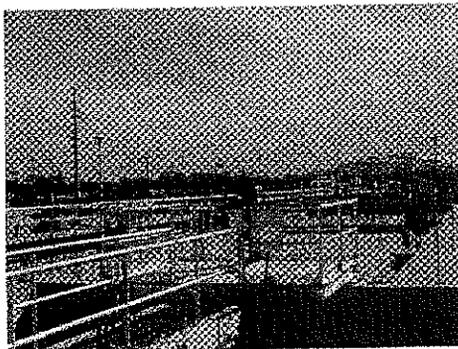

**Maricopa County Community College District Job Order Contract**

This job order contract is based on a coefficient of the RS Means unit price book. The contract dollar minimum is \$500,000 with no maximum limit. The maximum amount for a single project is \$300,000.

Contact Dates	Contracting Agency	Contact	Value of Contract
1/2004 - 12/2006	Maricopa County Community College District	Gary R. Eberhard, AIA CSI Architectural Project Manager - gary.eberhard@domail.maricopa.edu T (480) 731-8568 F (480) 731-8235	Completed \$150,278 In progress \$565,800

**City of Phoenix General Construction JOC**

We were selected to provide job order contract services based on a coefficient of the RS Means unit price book. The 18-month contract has a maximum value of \$4.5 million, which ever occurs first, with an 18-month extension option. The city intends for a maximum value of a single project of \$350,000 but under no circumstance will the value exceed \$750,000.

**Water Treatment Valves**

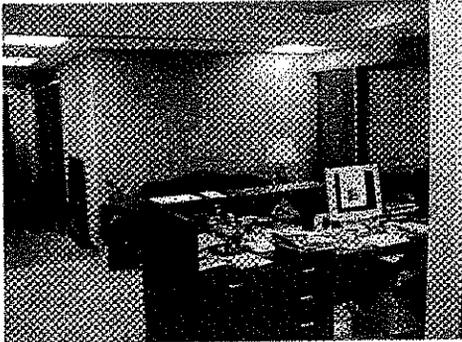

Replaced valves and actuators, provided new platforms, and furnished and installed new controls conduit and wiring

Schedule - 3 months

Project Cost - \$235,000

Provide a description of your experience working on school district or other governmental projects, working on multiple projects simultaneously, and working throughout the state.

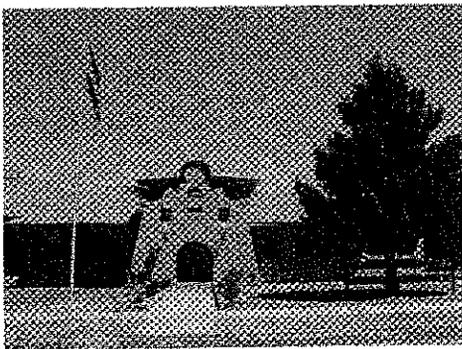

We have been providing construction services to public sector clients in Arizona since 1984. Ninety percent of our clients are from the public sector. We are currently providing services for the Arizona Department of Administration, Maricopa County Capital Facilities Department, the City of Phoenix, Tempe and multiple school districts. Below is a list of our current projects for all of our job order contracts.

**Office Remodel**

Remodeled fourth floor hall, built state of the art media room, remodeled office spaces.

Schedule - 6 1/2 months  
 Project Cost - \$237,255

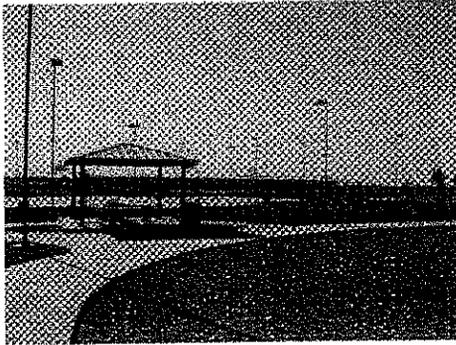

**Administrative Bldg. Re-Stucco**

Re-stuccoed exterior of building, stabilized basement

Schedule - 2 months  
 Project Cost - \$154,763

Provide a statement of your history for submitting claims and change orders. Provide specific information, i.e., type of claim, date, reason, amount, and outcome.

**Change Orders**

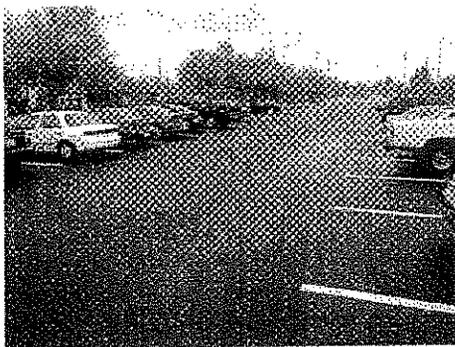

We have completed \$12.4 million in JOC work in the last three years. Change orders constitute less than 1.0% of our volume and in all cases have been *owner directed*. We attribute our success to our efforts in the scope definition phase of each task order.

**Claims**

3D/I's excellent claims history is reflected in the rates it pays for professional liability insurance, which are among the lowest paid by similar firms.

As with any large firm, we are exposed to nuisance claims or tentative lawsuits. We provided Program Management services for Mobil for 20 "C" Stores. Purchased by Exxon in the middle of one project, Exxon is considering litigation on a dimension issue our previous client, Mobil, had approved and Exxon believes to be incorrect.

No unfavorable judgment has ever been entered against 3D/I. No current claim poses any threat to the financial stability of 3D/I or to its ability to fully perform services. Further details are available on a confidential basis from 3D/I's General Counsel, Alan Fleishacker. His phone number is (713) 871-7006. His email address is [fleishacker@3di.com](mailto:fleishacker@3di.com).

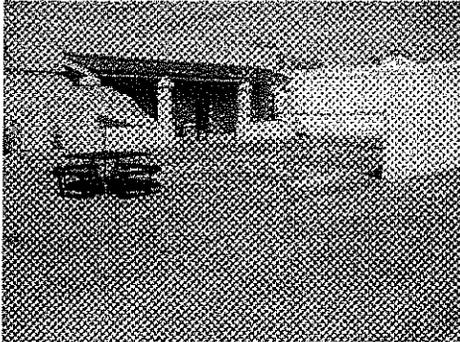

**Parking Lot Improvements**

Pulverized and reclaimed existing pavement for new parking lot including parking bumpers, striping, concrete sidewalk, vertical curbing, handicap ramps, and stop sign

Schedule - 1 month

Project Cost - \$41,455

## Safety

### **New Pavement and Gate**

Installed parameter fencing and driveway and removed interior curbing and fencing

Schedule - 1 month

Project Cost - \$21,529

Provide a copy of your firm's safety management plan.

We have corporate and site specific safety plans that are updated regularly. Our site specific safety plan incorporates and often exceeds local, regional and national safety requirements pertinent to this JOC program. Our site manager will ensure that all team members, including trade subcontractors, adhere to the safety requirements of each task order.

Provide a copy of your firm's safety training program.

Most of our staff members hold an OSHA 10-hour training certificate and we have in-house staff qualified to train in all aspects of OSHA safety requirements. Because our safety training manual is extensive, we have included the table of contents only, and have a manual available for your review at request.

Our safety record is a testament to the quality of our safety program.

OSHA	Recordable Cases	Lost Workdays	Restricted Workdays	Fatalities	Employee Hours
2003	5	330	4	0	1,325,996
2002	4	25	25	0	1,196,571
2001	0	1	7	0	896,878
2000	5	9	38	0	909,440
1999	3	3	35	0	756,560

Provide a letter from your firm's Insurance Company stating the Workers' Compensation Experience Modification Rate (EMR) for the past three (3) years.

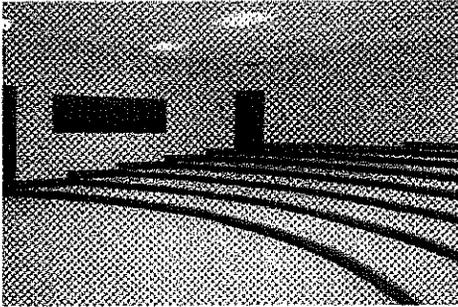

### *Statement of Qualifications Checklist*

When you send your statement of qualifications to Mohave, you should place it in a three-ring loose-leaf binder. You should keep a copy of all pages of this RFQ and copies of all the pages you send to Mohave.

*Place your initials on the lines below indicating that you have included the information.*

- X   1. Offer and Signature Page (RFQ page 2) was signed and placed after *tab 1*.
- X   2. The general terms and conditions were carefully read. (pages 3-9) Exceptions to the General Terms and Conditions, if any, were noted on the General Terms and Conditions Acceptance Form (page 10) RFQ pages 3-10 were placed after *tab 2*.
- X   3. The statement of qualifications was prepared in compliance with the requirements in RFQ pages 11-13. The statement of qualifications was placed it after *tab 3*.
- X   4. A certificate of insurance demonstrating current compliance with the insurance requirements in the General Terms and Conditions was placed after *tab 3*.
- X   5. Any additional pertinent information was placed after *tab 4*. This information could be a list of satisfied customers or photographs of worksites. Any info that will assist evaluators in reaching a decision should be placed after *tab 4*.
- X   6. The completed Statement of Qualifications Checklist was placed after *tab 5*.

## Construction and Related Services Offered

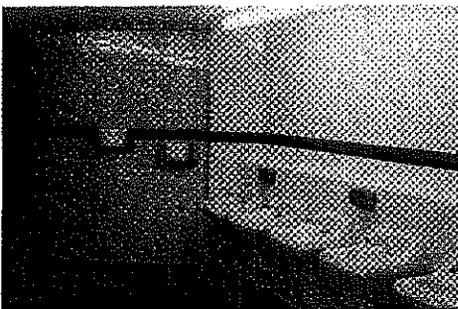

### Auditorium Renovation

Replaced flooring, acoustic ceiling, rubber base and painted

Schedule - 2 weeks

Project Cost - \$10,000

### Restroom Remodel

Demo all existing tile, plumbing fixtures, light fixtures, toilet partitions and accessories; provide drywall patches; paint; replace all existing finishes

Schedule - 2 months

Project Cost - \$81,048

Indicate the divisions or trades for which you are offering to contract. Follow the format in the Specifications for the Work Table of Contents (Attachment 1). Use the same division titles and work categories contained in Attachment 1 (i.e., Division 2-Site Work, Standard Penetration Test, Site Grading, etc.)

We will contract for all services listed with the exception of the following:

Division 7 - Asbestos Cement Roofing and Siding (No longer done by industry)

List all divisions and work categories you are offering to perform under the contract.

We serve our clients best when we focus on delivering the most appropriate solution to every task order. By choosing not to self-perform the trade work, we maintain our focus on quality, schedule and cost. To ensure our ability to respond in the field, we actively pursue and mentor subcontractors in every trade.

Indicate if you are offering design, engineering, maintenance, and/or operations services. Describe those services and indicate if in-house staff or subcontractors will provide them.

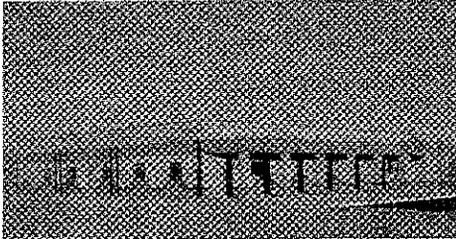

To be more responsive, we offer complete design services as part of the JOC contract. On most JOC task orders, design is limited to scope development and is fundamental to delivering the service. Our project team delivers the total solution. Sometimes, the solution is more complex and needs more "intellectual content" before the scope is proposed.

We have excellent relationships with many architectural firms throughout Arizona. Four firms we have used consistently in our JOC work have been Dick & Fritsche Design Group, Gabor Lorant Architects, Stichler and Architectural Resource Team. Each firm has provided high quality architectural and engineering services on our JOC projects. We coordinate closely during the design process to ensure all project components are properly detailed. Constructability is taken into account during the design process watching the budget closely. From beginning to end, close attention is given so that you pay only for the design needed.

3D/I is not a maintenance or operations company and these services are usually best performed by other companies focused on that marketplace. If you prefer, we will assist your customers in finding the appropriate service provider to serve their needs and that service may or may not be within the JOC contract.

## Contract Management Plan

Provide a statement of your plan for performing and managing the work. What personnel will be used?

### Modular Building

Installed modular units  
Schedule - 4 months  
Project Cost - \$595,298

### Partnering

Typical JOC task orders are small remodel projects, mechanical repairs, or interior renovation work that may be extremely disruptive to ongoing operations. We consider the needs of a diverse network of stakeholders. We seek input from all potential stakeholders to ensure clear communication. Communication of interests and concerns by all team members includes the facility owner and user, the contractor, the design team, trade subcontractors, maintenance personnel, and all other stakeholders affected by the project.

We define the needs and expectations, identify timelines, schedule milestones, and clearly define the quality of construction materials and budget considerations. We produce a total task solution for each project that meets or exceeds the teams' expectations with the least amount of disruption.

### Task Order Approach

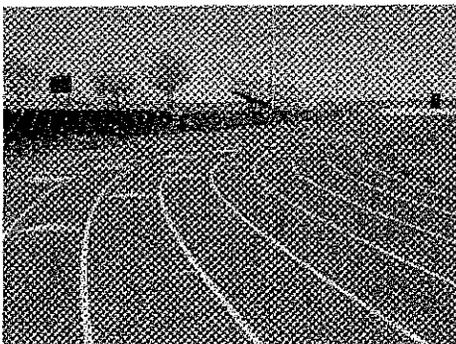

Our project manager assumes the responsibility for the total task solution as soon as we receive a task order. The project manager will conduct scoping sessions to identify the total scope of the project including:

- Site conditions
- Operating conditions
- Project schedule requirements
- Lead times on key materials
- Special equipment required
- Material specifications
- Rough order of magnitude budget check

This combination of specific job knowledge, customer familiarity, and subcontractor experience ensures a smooth and rapid start.

We created a two-track project delivery system that proceeds to completion on independent but parallel paths. The first is the scope and proposal development process, which is primarily the technical and subcontractor execution plan.

The second is the estimate preparation and scheduling component. Working closely with the project manager, the chief estimator assembles the team of qualified trade subcontractor(s) and supplier(s) that can best execute the work. In order to match subcontractors with the customer's needs we consider technical ability and availability, workload and lead-time on key materials and equipment. The Estimating Department carefully assembles the team ensuring that materials and equipment required in the execution of the

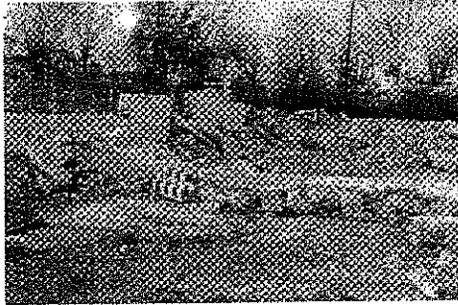

### Track Renovations

Removed and replaced curbs, track and sub grade material  
Schedule - 2 months  
Project Cost - \$593,500

work, has been considered. This task order delivery process allows us to respond to proposal requests quickly and accurately.

*The "Task Order Delivery Process" flowchart is provided on page 5.*

**Building Demolition**

Demolition of old building  
 Schedule - 4 months  
 Project Cost - \$137,756

**Project Engineering**

Under the direction of our project managers, the support staff will coordinate and track all project RFI's, submittals, and other project engineering duties required by the task order. We will post documentation and logs on our web-based program management software so progress is visible to all members of the team. Potential documentation includes pay applications, project notifications, daily logs, and progress photos.

**Project Scheduling**

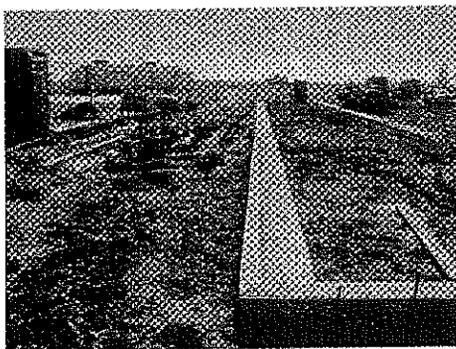

Our scheduling philosophy is simple—we plan the work and work the plan. Our project manager and project superintendent prepare a detailed project schedule while considering current facility schedules, long lead material deliveries and specific work area restrictions. The schedule is monitored and updated on a weekly basis for proper coordination and execution of the work plan. In addition to the overall project schedule, the project superintendent will maintain a three-week look-ahead schedule. This derivative schedule ensures the timely coordination of key subcontractors and suppliers currently required on site.

As construction progresses, our on-site superintendents review work-in-place on a daily basis and work with the subcontractor(s) to re-do any deficiencies noted in the quality of their work. Our superintendents manage and review the coordination of simultaneous work so subcontractors do not overstep each other, which can result in damage to work in place or delays. We are proud of our successful record of on-time and on-budget projects.

**Changes in Scope**

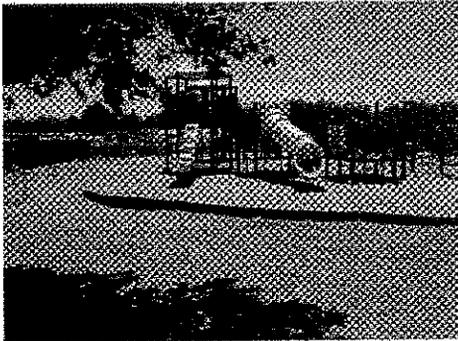

We have completed \$12.4 million in JOC work in the last three years. Change orders constitute less than 1.0% of our volume. We attribute our success to our efforts in the scope definition phase of each task order.

Most work in a JOC program is small civil work, minor remodels and tenant improvements. Unforeseen conditions do occur, for example, "as-built" information provided during the scope definition phase of one of our JOC projects proved to be inaccurate. This required the upsizing of an electrical control panel. In this case, we quickly determined the additional direct costs from the trade subcontractors while completing a concurrent internal cost estimate for comparison.

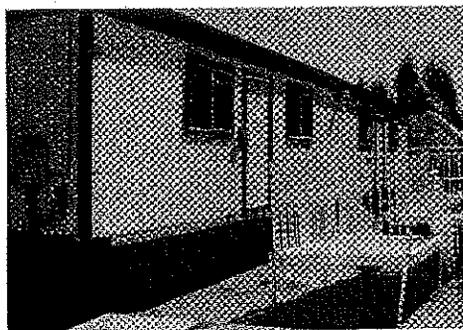

**Campus Infrastructure**

Site development for alternative learning center  
 Schedule - 9 months  
 Project Cost - \$627,558

**Playground Upgrade**

Converted to rubberized surface  
 Schedule - 4 ½ months  
 Project Cost - \$174, 592

**Relocate Modular**

Relocated modular classrooms  
 Schedule - 3 months  
 Project Cost - \$100,000

**Will you use technology? If yes, for what purposes?**

We will use our program management system, IMPACT, provided, operated and maintained by 3D/I. This system allow the team to track all administrative, financial, and physical progress information, as well as produce all reports in real time from the convenience of their personal computer.

**Scheduling**

Our staff will develop detailed Critical Path Method (CPM) schedules using MS Project. The CPM schedule can be rolled up into simple summary schedules with key milestone dates. We can display information in a CPM schedule, bar chart, and in calendar format with the daily construction activities shown alongside the event schedule.

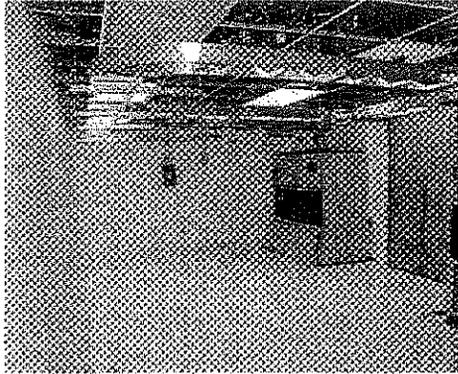

**Estimating**

We use Timberline Precision estimating software for the estimating and proposal development. Timberline, one of the premier estimating software packages available on the market today, provides our estimators the ability to prepare detailed, accurate proposals efficiently. We upload the contract Unit Price Book (UPB) database onto this software platform. We estimate and price all JOC task orders through this software. It is supported by state-of-the-art computer hardware systems and components including full plan sized GTCO electronic digitizers. These digitizers ensure the accuracy of all quantity surveys while at the same time dramatically reducing estimating time.

For efficient and timely response by the subcontract community to project solicitations, we use Bid Fax software. This software contains a database of pre-qualified trade contractors that allows us to notify the contracting community of projects available for their participation. Each project is setup with its unique and specific criteria, allowing for immediate communication with subcontractors that meet the specific project requirements.

**How do you plan to ensure prompt responses to job order requests?**

Quick response, quality construction, and aggressive construction schedules are just a few of the trademarks of a successful Job Order Contractor. We have developed and refined a delivery method that ensures all these attributes, plus fair and competitive pricing. Our task order delivery method, illustrated on page 5, depicts our standard yet flexible approach to each task order we undertake.

**Computer Room Construction**  
 Converted storage room to 500 s.f.  
 computer room  
 Schedule - 1 ½ months  
 Project Cost - 148,011

**What is your plan for responding to and performing multiple job orders at the same time?**

We usually have 25 - 30 task orders in progress at one time. Our well-defined process ensures each task order will meet or exceed the team's initial expectation. Additionally, we realize the backbone of every successful JOC contract is through the strength of its trade subcontractors. We are committed to maintaining positive working relationships with multiple subcontractors in each trade discipline. By having multiple pre-qualified firms available in each trade discipline, we are equipped to meet the needs of every task order. We know which subs are the best choices for each task order because we have extensive experience on JOC projects in Northern, Central Arizona and Southern Arizona. All subcontractors are pre-qualified for experience, financial capability, and quality of workmanship prior to making the team. We aggressively recruit and mentor subcontractors that we pre-qualify and select to bid on our projects. Our staff and subcontractors are ready to respond immediately as your JOC program rolls out.

**What limitations will you have geographically or in the number of simultaneous job orders?**

Executing multiple simultaneous job orders is a norm for our staff and support systems. We have no geographical limitations and are presently providing services from Sierra Vista to Window Rock. Our seasoned JOC staff and proven procedures allow us to take on new task orders at any time, anywhere.

**Provide other pertinent information that will help Mohave evaluate your firm and its capabilities.**

We take pride in our large number of repeat customers. Repeat business speaks highly of our capabilities and delivery success.

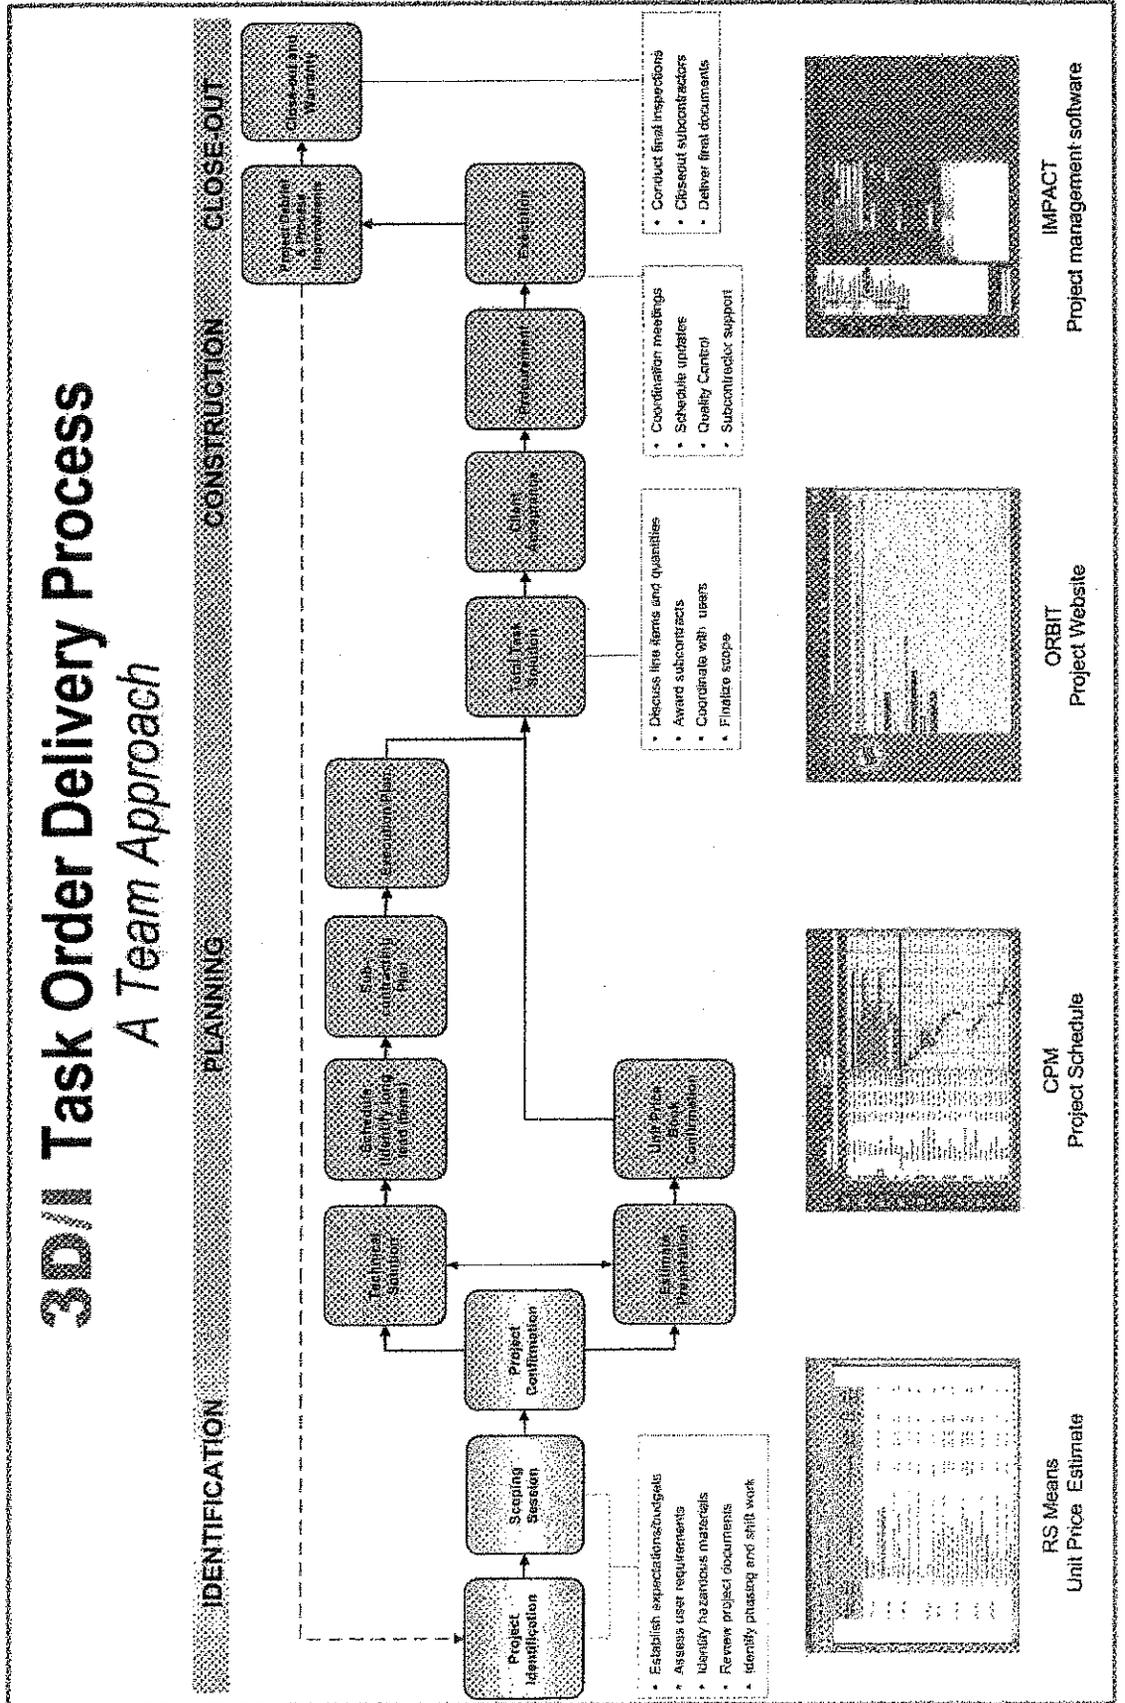

*"I enjoyed the experience and look forward to future partnerships."*

# 3D// Task Order Delivery Process

## A Team Approach

## Quality Management Plan

### Fencing Addition

Added gates and fencing around playground area

Schedule - 5 ½ months

Project Cost - \$9,038

### How do you set goals and monitor the performance of your company?

The scope definition process is critical in determining the perception of quality on an individual project. Quality is the measurement of conformance to requirements, and it is our responsibility to define those requirements with the client. The clearer they are defined, the more likely they will be met. The final definition of quality is the result of a collaborative effort among team members, and from consistent reconfirmation throughout each project.

We use a "call log" to monitor our performance on every task order. This is a living document and consists of every complaint, constructive (or otherwise) criticism, warranty call or any service item or process referred to by a customer. The QA/QC Manager oversees this list. All calls are closed with the customer and reported to Mohave. This practice improves our processes and works to improve the entire program.

We use a Client Report Card to help us enhance our continuous improvement process. It is a disciplined part of each project closeout and ensures that we continue to improve in serving our clients.

### How do you inspect the work to ensure quality?

Our Quality Management Plan (QMP) details the management practices and business procedures ensuring the highest quality of a product. Our Quality Control Plan (QCP) documents the product(s) that are reviewed and defines the details of the complete review process. These plans, when used in tandem, assure complete and consistent compliance with the quality standards established in the project documents.

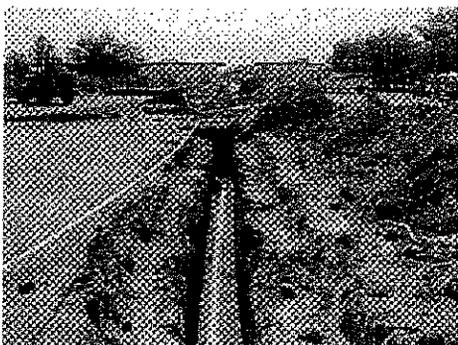

To ensure quality at all times, products are inspected before, during and after the installation process. They are checked for compliance with approved shop drawings, for conformance and compatibility with existing work or related function requirements, and rejected or replaced as needed.

We conduct quality inspections in collaboration with stakeholders, consultants and team members, who share in the objective of achieving the highest level of quality.

### How do you stay on schedule?

Our scheduling philosophy is to plan the work and work the plan.

- Our project manager, superintendent, key subcontractors and suppliers prepare a preliminary schedule, which converts to a detailed project schedule after approval by the client. This process considers the current facility schedule, stakeholder interests and requirements, long lead

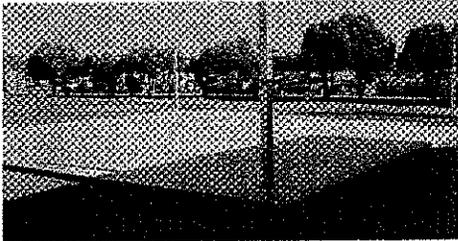

### Sewer Line

Installed new sewer line

Schedule - 1 month

Project Cost - \$71, 367

**Concrete Pad**

Poured concrete pad at playground

Schedule - 2 months

Project Cost - \$9,716

material deliveries and specific work area restrictions, school schedules and client provided installation schedules.

- The schedule is monitored and updated weekly for coordination and execution of the work plan.
- Finally, the project superintendent maintains a three-week look-ahead schedule reviewed weekly with all subcontractors. This derivative schedule ensures the timely coordination of key short term events which are critical to maintain.

As construction progresses, our on-site superintendents review work-in-place on a daily basis and coordinate with the subcontractor(s) to continually ensure quality and timely completion of their work. Our superintendents manage and review the coordination of simultaneous work so subcontractors do not impede each other's continuity and productivity. We are proud of our successful record of on-time and on-budget projects.

**What is your complaint and dispute resolution procedure?**

**Claims**

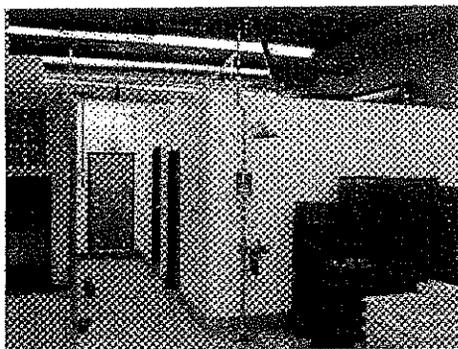

We initiate and implement a claims avoidance/management program that strives to avoid claims and minimize the impact of those that occur by resolving them quickly. We have found that the two main methods of mitigating claims are avoiding situations that tend to produce them—and establishing procedures for them to be resolved.

We have developed and tested front-end documents that protect the client from inexperienced and unqualified subcontractors, as well as subcontractors who practice the low bid, high change order approach. Additionally, we work with the subcontractors, not against, to avoid problems. We work to solve problems as they arise, rather than deferring them to the end of the project.

**Dispute Resolution**

First, we have never had to use dispute resolution on a JOC task order. If we did, we prefer mediation as a first step toward resolution whether it is required by the contract or voluntary. It is a fair and expeditious tool for resolving problems before they affect your program. We maintain a "litigation averse" culture when it comes to our client relationships.

Communication is still the most effective way to minimize disagreements that occur both at the project and program level. Every scoping session and technical solution, in combination with the subcontracting performance solution, is driven toward mitigating project disputes. Initial Partnering sessions have been shown to be effective tools in outlining the mission of the project and how to resolve coordination challenges that may arise. This session will outline all steps needed to support a team approach to each task order.

**Hazardous Material Storage Remodel**

Converted a workshop into a hazardous material storage facility

Schedule - 2 ½ months

Project Cost - \$235,079

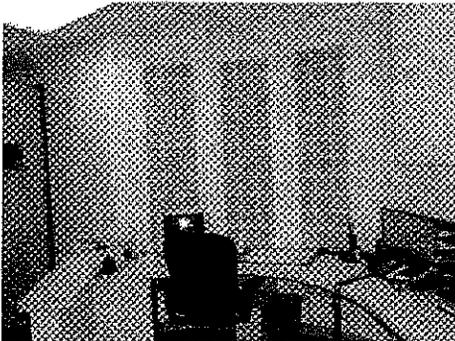

**Provide other pertinent information that will help Mohave evaluate your firm and its capabilities?**

Our QA/QC/Safety Program is administered by highly trained and knowledgeable individuals.

Our Program consists of predetermined planning and inspections for compliance and quality for each definable element of work. It begins with a preparatory meeting and job review to ensure quality and compliance expectations are understood before the work begins. An initial work inspection is conducted at the start of the definable activity and follow-up and final inspections are carried out during and after completion of the work to ensure that high quality is maintained. QA/QC and safety plans will be discussed with you, revised as necessary, and provided in final form within fifteen days after award.

We monitor contractors and suppliers for all construction items, work, and services. We document their proven capability to provide a quality product or service on time and as expected. Our project manager maintains an up-to-date list of trade contractors, suppliers and support service companies used on the project and review their performance to assist in their improvement efforts. The first step in quality service in the JOC program is in selecting quality subcontractors who are familiar with the program requirement.

In addition to our quality program that emphasizes planning at every step of a project's execution, we post submittal logs on our web-based program management software so progress is visible to all team members. This system becomes even more valuable as we develop "standard" materials preferences and establish electronic submittal libraries where a significant number of material and administrative submittals can be reviewed and approved in a short time. Managing progress schedules becomes easier as well by posting not only current schedules but also past schedules.

**Office Remodel**

Rebuilt secretarial area, new paint & carpet  
 Schedule - 3 months  
 Project Cost - \$32, 330

**Ballroom Remodel**

Installed new drywall and soffits, upgraded electrical system, added lighting in soffits, vinyl wall coverings, and mechanical (HVAC) system upgrades  
 Schedule - 1 month  
 Project Cost - \$115, 540

## Subcontractor Management Plan

Provide a statement of your plan for managing subcontractors.

We manage subcontractors and suppliers for compliance with all project requirements through established monitoring and measuring methods. We administer their performance using regularly planned schedule reviews, delivery commitments, site inspections, manpower requirements and quality standards

How will you recruit subcontractors, particularly in the local communities where work will be performed?

In recent years, we have established relationships with consultants and subcontractors throughout the State. This has been achieved by working with the local Contractor's Association, realtors, other general contractors, material suppliers and staff who know and can make good quality recommendations. We build on and maintain these relationships. We are also attentive to those qualified contractors who are known "travelers," organized to work out of town. We've recently embarked on a concerted effort to establish new contacts in the industry in locales considering adapting a JOC program and we have been successful in establishing defined contractor programs in six outlying cities.

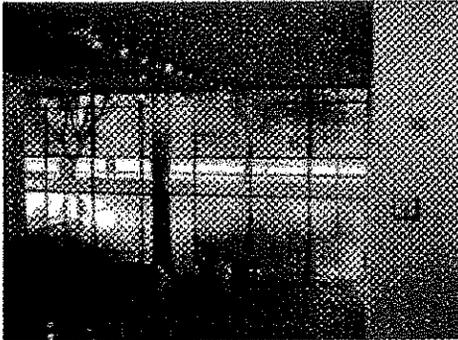

How will you ensure acceptable quality for work performed by subcontractors?

Compliance inspections are routinely conducted for all products delivered to or installed on the project. Materials are checked for damage at the time of delivery and necessary adjustments enforced.

Installations are checked against shop drawings and submittals for conformance. Defects, unacceptable materials or workmanship are noted, rejected and monitored until satisfactory corrections are made. These policies are administered regularly to ensure no delays result from quality related issues.

Acceptance inspections are conducted at the completion of each phase or portion of the work. Deficiencies are documented and corrections made. Third party consultants are retained for technical inspections such as roofing or MP&E work when necessary.

Release of payments and warranty guidelines motivate quality and compliant performance.

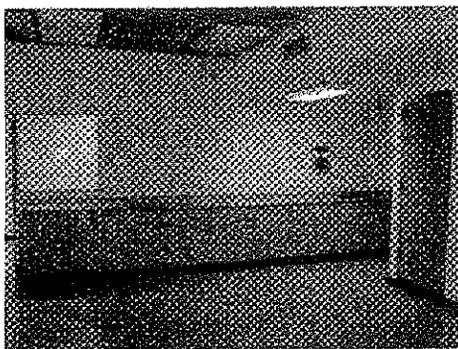

### Fine Arts Studio Remodel

Replaced damaged glazing, retextured and repainted walls, removed drop ceiling, refinished floors, repaired/renovated restroom

Schedule - 2 months

Project Cost - \$61,634

### Office Remodel

Remodeled new spaces for Army and Air Force recruiting office

Schedule - 1 ½ months

Project Cost - \$248,049

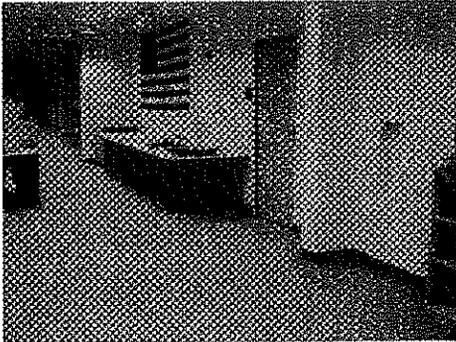

**How will you address controversies and claims related to work performed by subcontractors?**

Communication is the proven tool to avoid disputes and controversies. Weekly meetings with responsible parties mitigate or resolve most disputes. Issues are addressed with all stakeholders before a dispute escalates. In the unlikely event disputes advance to dispute resolution, mediation typically resolves them.

There are alert systems in place, e.g., RFIs, issue logs, COR logs, meeting minutes, etc., that signal a controversy. These are monitored routinely in an effort to respond to each as needed.

**Provide other pertinent information that will help Mohave evaluate your subcontractor management capabilities.**

We retain qualified local subcontractors to perform all fieldwork unless required otherwise. This ensures quality work by skilled personnel who stay current in the materials and methods used in their respective trades. Their tenure in the trades ensures that warranty programs are honored and service is rendered in a timely manner. We select established subcontractors who are experienced in JOC work and administration, or who are willing to participate in JOC training and learning programs. We believe a job order contract must be solutions-oriented rather than simply an on-call construction contract. Our cadre of local subcontractors helps us deliver the best and most appropriate solutions to our clients.

**Sheet Rock Repair**

Replaced water damaged sheet rock

Schedule - 2 weeks

Project Cost - \$2, 781

\*Authorized Signature [Handwritten Signature] \* Phone 602-778-4400

If you are willing to honor purchase orders from Cooperative Educational Services in New Mexico under the same terms and conditions as in this RFP place your initials in the box. (See last page for details.)

If you are unable to service New Mexico, please initial this box.

**Acceptance of Offer and Contract Award (Mohave Only)**

**Your Proposal is Hereby Accepted:**

As Contractor, you are now bound to sell the materials and/or services offered to and accepted by Mohave in accordance with the solicitation, including all terms, conditions, specifications, amendments, etc.

This Contract shall be referred to as Contract Number 04E-3D2-0901

Awarded this 15<sup>th</sup> day of September 2004.

The Contractor shall not commence any billable work or provide any material or service under this Contract unless and until Contractor receives a purchase order from Mohave.

[Handwritten Signature]  
Michael D. File, Superintendent  
Mohave County Schools

[Handwritten Signature]  
James F. Migliorino, Executive Director  
Mohave Educational Services

**Award Notification**  
Via Email

3D/International, Inc.  
Ward Simpson

9/1/04

Congratulations – 3D/International, Inc. has been awarded a contract under RFP 04E-0813. Attached is a copy of the contract signature page. Important notes on this award are listed on page two.

Your organization is bound by the terms of this contract: **only items specifically requested in this solicitation and submitted in your response to this solicitation will be authorized/allowed.**

Advise your Mohave customers to note your contract number on their purchase orders (along with a copy of your quote) and send them to:

Mohave Educational Services Cooperative (MESC), 625 E. Beale, Kingman, AZ 86401  
Or members can fax POs to (928) 718-3232.  
Or members can email POs to [orders@mesc.org](mailto:orders@mesc.org)

We highly recommend having your staff review Mohave's **vendor handbook** to learn more about working with MESC. It is available on-line at [www.mesc.org](http://www.mesc.org).

**Please** check all the entries on the contract record enclosed. You may make additions or revisions to the description (40 words or less), contact persons, etc. Email back any changes as soon as possible.

If you have any questions regarding your new contract please call me at (928) 718-3201. We look forward to working with you and your company in the future.

Craig A. McKee, CPPB  
Contracts Manager

**NOTES ON YOUR AWARD:**

- Mohave Educational Service Cooperative anticipates a change in organization from a School Service Agency to a State Non-profit Corporation. It is anticipated that this contract will be assigned to the State Non-profit Corporation as a successor in interest.
- Financial information included under Tab Four of your response will be kept confidential, unless it is in the form of an annual report for the general public.
- Make sure to provide members with itemized quotes with correct UPB coefficients and city multiplier applied.
- Mohave issues Open Order Reports the first Friday of each month. Failure to provide complete status on open orders may cause your contract to be put on hold.
- All items quoted must be priced and approved by Mohave in advance. Send requests for non pre-priced items to Tom Peeler, [tom@mesc.org](mailto:tom@mesc.org).
- Do not provide any goods/services until you receive a purchase order from MESC.
- Your contract pricing includes Mohave's admin fee. We highly recommend you send a sample invoice to Julia Tribbett, [Julia@mesc.org](mailto:Julia@mesc.org), so that you can confirm your invoices will conform to our new procedure, and thus avoid payment delays.
- Make sure that bond requirements are met as described on the contract record attached.
- Your assigned Mohave Procurement Specialist is John Baril, [john@mesc.org](mailto:john@mesc.org).

*General Terms & Condition  
and  
Standard Terms & Conditions for Construction  
Acceptance Form*

Place after Tab 3

*Signature on page two certifies complete acceptance of the General Terms and Conditions and the Standard Terms and Conditions for Construction in this solicitation, except as noted below (additional pages may be attached, if necessary).*

*We take the following exceptions to the General Terms and Conditions and/or the Standard Terms and Conditions for Construction (Indicate "None," if no exceptions are taken):*

We take no exceptions to the General Terms and Conditions and/or the Standard Terms and Conditions for Construction

**Special Terms and Conditions  
And  
Scope of Work and Specifications  
Acceptance Form**

Place after Tab 5

*Signature on page two certifies complete acceptance of the Special Terms and Conditions and Scope of Work and Specifications in this solicitation, except as noted below (additional pages may be attached, if necessary).*

*We take the following exceptions to the Special Terms and Conditions or make the following deviations from the Scope of Work and Specifications. (Indicate "None," if no exceptions or deviations are taken):*

We note the following as deviated items within the Special Terms and Conditions.

- 2.4.06 Upon request from member, and if included in the awarded contract, contractor shall provide maintenance services related to the job order.

*3D/I is not a maintenance or operations company and these services are usually best performed by other companies focused on that marketplace. If you prefer, we will assist your customer in finding the appropriate service provider to serve their needs and that service may or may not be within the JOC contract.*

## Job Order Contracting (cont'd)

### 1.0 Special Terms and Conditions (cont'd)

- 1.21 Warranty shall continue for a period of one (1) year from date of final acceptance of the work. If member takes possession of any part of the work before final acceptance, this warranty shall continue for a period of one (1) year from the date member takes possession.
- 1.22 Contractor shall remedy at contractor's expense any failure to conform or any defect. In addition, contractor shall remedy at contractor's expense any damage to member-owned or controlled real or personal property, when that damage is the result of contractor's failure to conform to contract requirements or any defect in equipment, material, workmanship, or design furnished. Contractor's warranty with respect to work repaired or replaced will run for one (1) year from the date of repair or replacement.
- 1.23 If contractor fails to remedy any failure, defect, or damage within a reasonable time after receipt of notice, member shall have the right to replace, repair, or otherwise remedy the failure, defect, or damage at contractor's expense.
- 1.24 No specific job order under this contract shall exceed \$750,000, or the amount set by applicable law at the time of the job order. A definition of job order is not found in the law. For this contract, a job order is defined as, "A project that is constructed at a single location, at a common location or for a common purpose."
- 1.25 While retention is not required for job-order-contracting construction services, buying member may elect to require retention on job order construction provided under this contract. If member elects to require retention, the following shall apply:
- (a) Retention shall be five per cent of each payment.
  - (b) Retention applicable to each job order shall be released within sixty days after final completion of the job order and acceptance of the work under the job order.
  - (c) No retention on the job order may be released until that time.
  - (d) The retention percentage shall not be increased.
  - (e) Retention shall not be withheld on amounts paid for design, preconstruction, finance, maintenance, or any other related services included in the job order.

### 2.0 Scope of work and specifications

Offerors will respond to each numbered item by checking the appropriate "Comply" or "Deviate" box. "No Bid" items shall be marked as such in the appropriate "Deviate" box. Details for deviations will be listed by item number on the Special Terms and Conditions and Scope of Work and Specifications Acceptance Form. (page 32) Place pages 26-31 after tab 5.

Requirement	Comply	Deviate*
<b>2.1 General</b>		
2.1.01 Contractor performing the work shall be properly licensed to perform that work.	✓	
2.1.02 Contractor shall provide all labor, materials, equipment, and services required to complete each project according to the schedule developed with member representative. All required bonds will be provided to member prior to starting the work.	✓	
2.1.03 All work shall be accomplished in accordance with the material and/or equipment manufacturer's instructions. Prior to performing any work, contractor shall make himself and his personnel aware of such instructions.	✓	
2.1.04 If contractor prepares drawings, member representative shall approve them prior to starting any work.	✓	
2.1.05 Contractor shall supervise all work, use qualified personnel and require personnel to be familiar with safety procedures, equipment operation, and manufacturer's installation requirements.	✓	

\*Deviations must be listed on the Special Terms & Conditions and Scope of Work and Specifications Acceptance Form (page 32). List the specification number for each deviation.

## Job Order Contracting (cont'd)

### 2.0 Scope of work and minimum specifications (cont'd)

Requirement	Comply	Deviate*
<b>2.1 General (cont'd)</b>		
2.1.06 Contractor's work responsibility shall include all contractor planning, programming, administration, & management necessary to provide all construction & related services as specified. Contractor shall perform the work in strict accordance with the contract and all applicable federal, state and local laws, regulations, codes, or directives.	✓	
2.1.07 Contractor shall ensure all work meets, or exceeds, critical reliability rates or tolerances specified or included in applicable documents.	✓	
2.1.08 Contractor shall provide related services such as preparing and submitting required reports, performing administrative work, and submitting necessary information as specified under this contract and within individual job orders.	✓	
2.1.09 Member shall make all reasonably required amounts of utilities available to contractor from existing outlets and supplies, at no additional cost to contractor.	✓	
2.1.10 Where existing utilities are not available at the project site, contractor, at its expense and in a workmanlike manner, shall install & maintain all necessary temporary connections and distribution lines. Before final acceptance of the work by member, contractor shall remove all temporary connections, distribution lines, meters, etc.	✓	
2.1.11 Contractor shall conduct a pre-final inspection prior to requesting a final inspection. Any discrepancies shall be corrected prior to final inspection.	✓	
2.1.12 A request for final inspection shall normally be requested one day before the desired date or as otherwise negotiated with member representative. Member representative, or designee, will perform final inspection with contractor. Any discrepancies will be noted and corrected within the time specified by member representative prior to payment.	✓	
2.1.13 Prior to performance of final inspection, contractor shall submit and have member representative approve all submittals, as-built drawings and manuals.	✓	
2.1.14 During progress of the job, contractor shall keep a careful record at jobsite of all changes and corrections from the layouts shown in the drawings. Contractor shall promptly enter all such changes and corrections on contract or record drawings. Each sheet of the corrected set shall be stamped with "Record Drawings As-Built," or a similar notation.	✓	
2.1.15 In addition to all changes and corrections, record drawings shall include the actual location of all sub-surface utility lines.	✓	
2.1.16 Contractor shall provide reproducible, professional drafting quality drawings with final record drawings when member furnishes reproducible design drawings or contractor develops detailed working drawings. The drawings shall be provided in accordance with industry standards.	✓	
2.1.17 Contractor's personnel may be permitted to use toilet facilities on the premises subject to approval from member representative. In the event none are available, contractor shall, at his expense, provide portable facilities, as required.	✓	

\*Deviations must be listed on the Special Terms & Conditions and Scope of Work and Specifications Acceptance Form (page 32). List the specification number for each deviation.

## Job Order Contracting (cont'd)

### 2.0 Scope of work and minimum specifications (cont'd)

Requirement	Comply	Deviate*
<b>2.1 General (cont'd)</b>		
2.1.18 The area where work is to be performed may be occupied by member during construction period. Contractor shall have access to that portion of the area within which work is to be performed. Movement of contractor personnel, equipment, materials, and tools shall be confined to that area so as not to interfere with ongoing operations in the work area.	✓	
2.1.19 Contractor shall not build upon or conceal defective work.	✓	
2.1.20 Materials classified by member representative as salvageable shall remain property of member and shall be delivered as designated by member representative.	✓	
2.1.21 Materials not classified as salvageable or repairable by member representative shall be disposed of in accordance with applicable federal, state and local rules, regulations, statutes, and ordinances.	✓	
2.1.22 Contractor shall immediately notify member representative if asbestos is identified in the work area. Member representative will provide further instructions to contractor.	✓	
2.1.23 Prior to final acceptance and payment, contractor shall submit manufacturers' original operation and maintenance manuals to member representative for all applicable equipment and materials. Contractor shall conduct a training session to brief member personnel on operation and maintenance procedures of such equipment and materials.	✓	
2.1.24 Contractor shall ensure all work areas that may pose a hazard to building occupants are adequately identified and secured at all times.	✓	
2.1.25 Equipment and materials must be produced by manufacturers and fabricators regularly engaged in manufacture of similar items and with a history of successful production acceptable to member.	✓	
2.1.26 All materials furnished under the contract shall be new, of the latest design, of good quality, free from defects, and in compliance with the specifications and scope of work.	✓	
2.1.27 All materials and equipment furnished under the contract must be of brands and models acceptable to member.	✓	
<b>2.2 Pricing</b>		
2.2.01 Contract pricing will be based upon a coefficient to be applied to an approved Unit Price Book (UPB).	✓	
2.2.02 The UPB shall be the current edition of RS MEANS Facilities Construction Cost Data.	✓	
2.2.03 Use of current editions of RS MEANS Building Construction Cost Data, Repair and Remodeling Cost Data, Electrical Cost Data, Mechanical Cost Data, Heavy Construction Cost Data, Plumbing Cost Data, Interior Cost Data, Site Work & Landscape Cost Data, Concrete & Masonry Cost Data, is allowable if the appropriate line item is not found in the Facilities Construction Cost Data.	✓	
2.2.04 The Weighted Average City Cost Index for the city closest to project location and the prices in "Total, include O & P" column in the applicable UPB will be used for project costing.	✓	
2.2.05 The total value of applicable line items and quantities will be multiplied by the appropriate City Cost Index and the specified coefficient to determine the lump sum cost of each job order.	✓	

\*Deviations must be listed on the Special Terms & Conditions and Scope of Work and Specifications Acceptance Form (page 32). List the specification number for each deviation.

## Job Order Contracting (cont'd)

### 2.0 Scope of work and minimum specifications (cont'd)

Requirement	Comply	Deviate*
<b>2.2 Pricing (cont'd)</b>		
2.2.06 Contractor shall provide member with an itemized project cost prior to starting any job order. Project cost shall include: UPB Name                      UPB Date                      Date of Quote Line Number                      Item Number                      Item Description Number of Units                      Unit Price                      Total Line Cost Line Items Sub Total                      Coefficient Amount                      Grand Total	✓	
2.2.07 Items that cannot be found in the UPB or other approved RS MEANS cost data index are considered "non pre-priced" items. If the UPB or other approved cost data index contain an item that is basically the same in form, fit and function, it may be used to price a non pre-priced item. If such pricing is used, substantiating rationale and documentation will be included in the line item cost sheet.	✓	
2.2.08 If like items cannot be found in the UPB, contractor will obtain three written quotes for a non pre-priced item and submit the quotes to Mohave. Mohave will determine the most appropriate quote to use for adding the item to the UPB.	✓	
2.2.09 Upon approval from Mohave, the non pre-priced item will become part of the UPB and available for any job order. Contractor shall not provide a new item unless and until Mohave approves it.	✓	
2.2.10 A coefficient to be applied to the cost of non pre-priced items will be provided.	✓	
2.2.11 Coefficients shall be provided for normal business hours (M-F, 7 a.m.-5-p.m.) and "other" hours (after hours, weekends, holidays, etc.). "Other" hours shall only be worked with prior approval from the member representative.	✓	
2.2.12 Coefficients shall be extended no more than two decimal places.	✓	
2.2.13 Coefficients shall include all costs associated with performing the work contained in the UPB. Such costs include, but are not limited to the direct cost of doing the work; labor; overhead; general & administrative; profit; project office expenses; mobilization and close-out costs; insurance; compliance with environmental and other applicable laws; protective clothing and equipment; traffic and work site barriers; computer systems and software; vehicles, maintenance and fuel; and all contingencies connected to performing the work. <i>No additional payment will be allowed for these items.</i>	✓	
2.2.14 Offeror shall specify in the proposal what additional types of costs are included in the coefficients.	✓	
2.2.15 UPB Division 1 sections before 01530, Temporary Construction, are excluded from the contract, except as specified below. Such items shall be included in coefficients. Member may approve specific exceptions caused by unusual & unforeseen circumstances.	✓	
2.2.16 The following UPB Division 1 items are allowed, when the specified work is required or authorized by the member: 01250-400-0500 through 1750 01450-500-0010 through 8000 01510-800-0010 through 0700	✓	
2.2.17 Labor, equipment and material prices will be adjusted in accordance with the prices in each new edition of the UPB. Adjustments will be to the UPB only. No adjustment will be applied to cost items comprising the coefficient. No upward adjustment shall apply to job orders awarded prior to effective date of the adjustment, regardless of the date of commencement of work.	✓	

\*Deviations must be listed on the Special Terms & Conditions and Scope of Work and Specifications Acceptance Form (page 32). List the specification number for each deviation.

## Job Order Contracting (cont'd)

### 2.0 Scope of work and minimum specifications (cont'd)

Requirement	Comply	Deviate*
<b>2.2 Pricing (cont'd)</b>		
2.2.18 All prices in the UPB are for completed-in-place construction unless explicitly described otherwise. Waste or excess material quantities are incidental costs, which are included within the coefficient unless explicitly stated otherwise. Quantities used on individual job order proposals shall be taken from field measurements or design plans, as appropriate, without allowance for waste.	✓	
<b>2.3 Specifications for the Work</b>		
2.3.01 Specifications for the work are attached (Attachment 1). All work shall be performed in accordance with the attached specifications.	✓	
2.3.02 Contractor may recommend alternate specifications or additional specifications for work to be performed under a job order. Any alternate specification offered shall comply with all applicable rules, regulations, statutes, ordinances, codes, and standards.	✓	
2.3.03 Contractor shall obtain approval from member representative prior to using any alternate specification for any work to be performed under the contract.	✓	
2.3.04 Prior to starting any work, contractor shall notify member representative of any specification that is in conflict with applicable rules, regulations, statutes, ordinances, codes, and standards, and offer an alternate solution that is in compliance.	✓	
2.3.05 When any aspect of a project is not covered by a specification, building code or standard, the minimum standard for good and workmanlike construction shall be established usage, procedures and acceptable industry practices prevailing in America.	✓	
2.3.06 No products that contain asbestos fibers will be used.	✓	
2.3.07 Removal of any vinyl-asbestos tile or other flooring with asbestos fibers will be accomplished following all local, state and federal laws for the handling and disposal of asbestos.	✓	
2.3.08 Where practicable, all work shall be accomplished in a manner to match adjacent existing work in the same area or on the same elevation. Contractor will not make adjustments to or alter in any manner member's existing facilities without prior approval from member representative.	✓	
2.3.09 Upon completion of the work, worksite must be clean and free from debris.	✓	
<b>2.4 Services</b>		
2.4.01 Upon request from member, contractor shall obtain the permits required for a job order. Member shall reimburse contractor for actual cost of such permits. No amount for overhead and profit will be allowed.	✓	
2.4.02 Upon request from member, and if included in the awarded contract, contractor shall provide design services related to the job order.	✓	
2.4.03 Design services shall be provided in accordance with applicable federal, state, local, and industry rules, regulations, statutes, ordinances, standards, and guidelines.	✓	
2.4.04 Upon request from member, and if included in the awarded contract, contractor shall provide engineering services related to the job order.	✓	
2.4.05 Engineering services shall be provided in accordance with applicable federal, state, local, and industry rules, regulations, statutes, ordinances, standards, and guidelines.	✓	

\*Deviations must be listed on the Special Terms & Conditions and Scope of Work and Specifications Acceptance Form (page 32). List the specification number for each deviation.

## Job Order Contracting (cont'd)

### 2.0 Scope of work and minimum specifications (cont'd)

Requirement	Comply	Deviate*
<b>2.4 Services (cont'd)</b>		
2.4.06 Upon request from member, and if included in the awarded contract, contractor shall provide maintenance services related to the job order.		✓
2.4.07 Maintenance services shall be provided in accordance with applicable federal, state, local, and industry rules, regulations, statutes, ordinances, standards, and guidelines.	✓	
2.4.08 There shall be no charge for repair services prior to expiration of the warranty period.	✓	

\*Deviations must be listed on the Special Terms & Conditions and Scope of Work and Specifications Acceptance Form (page 32). List the specification number for each deviation.

## Appendix B: Questionnaire for Offeror

Place after Tab 7

1. Do you collect Arizona sales tax?      Yes X    No \_\_\_      N/A  
 If yes, at what rate?    Tax rate is \_\_\_ % or X rate varies by ZIP code of ship-to address  
 Arizona Transaction Privilege (Sales) Tax License Number 07-594528-X

2. For products on your price list, is shipping/handling included in the price? Yes X No \_\_\_  
 If No, estimate S/H on purchases \_\_\_\_\_

3. Mohave is established by the authority granted to schools to offer a service program "which can be accomplished more efficiently and economically as a multidistrict or multicounty operation."

Efficiency and economy can be established through reduced bidding effort for members and vendors, management of a single contract, fewer price schedules to maintain, fewer contact persons, using Mohave as an extension of members' purchasing departments, etc. Additionally, it is Mohave's assertion that a statewide contract available to approximately 700 member agencies results in economies of scale and lower prices than those received by bidding individual contracts, especially, but not limited to small member agencies.

Will a contract based upon your proposal result in the efficiencies and economies described above?

Yes X    No \_\_\_

If No, what efficiencies and economies would members receive from a contract based on your proposal?

\_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

4. List applicable Arizona Contractor's licenses held by your company.

Name of licensee	Classification	Number
Commercial General Contractors	B-01	145813
General Engineering	A	167500
Commercial Residential Contractor	B	198465

5. Describe your return policy? What is your restock fee, if any? (Restock fee must not exceed 15%)

Not applicable for this service

Describe any exclusions or limitations applicable to your return policy. Not applicable for this service

6. Where should Mohave mail purchase orders?

Attention of Ron Ecker

UPS Address 2111 E Highland, Suite 402B      Mailing Address 2111 E Highland, Suite 402B

City Phoenix      State AZ      ZIP 85016

Telephone (to verify prices) 602-778-4400      Fax 602-778-4444

Do you prefer that Mohave mail, fax or email (pdf format) your purchase orders?

Mail \_\_\_      Fax \_\_\_      Email X      Email Address ecker@3di.com

*Note: Mohave prefers to issue purchase orders by email in order to expedite order placement.*

**Appendix B: Questionnaire for Offeror (cont'd)**

Place after Tab 7

7. Where do you want payments sent?

Attention of Mary Bonsack

UPS Address 2111 E Highland, Suite 402B Mailing Address 2111 E Highland, Suite 402B

City Phoenix State AZ ZIP 85016

Telephone (invoice questions) 602-778-4400 FAX 602-778-4444

If you want Mohave to send payments by a private, NEXT DAY, carrier, please identify the carrier and your account number: \_\_\_\_\_

Name of contact in accounting Mary Bonsack email address bonsack@3di.com

8. Additional contacts for Mohave.

Name of Arizona Representative Ron Ecker

Title Program Manager

Phone number 602-778-4493 Fax 602-778-4444

Email address ecker@3di.com

Name of contact for RFP/contract Ron Ecker

Title Program Manager

Phone number 602-778-4493 Fax 602-778-4444

Email address ecker@3di.com

9. Sales support by region (If you have representatives other than the Arizona Representative listed above.)

Name	Region served	Phone
Phil Vilardi	Arizona	602-778-4483
Jim Hook, Jr.	Arizona	602-778-4488
Winton Smith	New Mexico	505-830-3180

10. Indicate if your offer is regional or statewide. Regional \_\_\_\_\_ Statewide X

If regional, indicate the regions in Arizona you will service. \_\_\_\_\_

11. Will you offer a quick pay discount if payment is made within 20 or 30 days? Yes \_\_\_\_\_ No X

If Yes, what is the discount for 20 days? No 30 days? No

12. What is your general website (Internet) address? www.3di.com

13. If awarded a contract, will you host your Mohave pricing on your website? Yes \_\_\_\_\_ No X

If awarded a contract, will you provide your pricing in Excel format? Yes \_\_\_\_\_ No X

Indicate formats other than Excel you can use to provide electronic pricing.

Timberline

**Appendix C: Support and Maintenance Plans**

Place after Tab 7

Provide the requested information for warranty and maintenance service offered by your firm

Do you provide warranty and maintenance for the items in the proposal? Yes  No  If no, how do members obtain warranty and maintenance service?

Yes, we provide warranty as a general contractor for these projects.

No, maintenance is the responsibility of the client.

Provide the name and address of the facility that will provide warranty and maintenance service. If there is more than one facility, provide the names and addresses for all facilities. Attach a list if necessary.

Does not apply to this service

Provide a contact person and phone number for warranty and maintenance service. If there is more than one facility, provide the information for all facilities. Attach a list if necessary.

Does not apply to this service

If the number above is not a toll-free number, will you accept collect calls at that number? Yes  No

Do you provide technical help via phone? Yes  No  If yes, provide a phone number and contact.

Does not apply to this service

How many technicians are located at each warranty/service facility that would serve a Mohave contract?

Does not apply to this service

What is the value of parts inventory normally on hand at each warranty/service facility that would serve a Mohave contract?

Does not apply to this service

Describe the steps a member should take to activate a warranty, if any. The client should contact the project manager for the project or the program manager. We provide a list of subcontractor's and manufacturer's contact information for subsequent follow-up.

Do you offer extended warranty or maintenance service plans? Yes  No  If yes, provide a summary of the plans here and place any sample forms after Tab 8. Does not apply to this service

Include pricing for extended warranty or maintenance service plans in your discount and price schedule. (Tab 6.)

## Appendix D: Manufacturer's Representative Information, References & Business Ownership

Place after Tab 7

### Manufacturer's Representative Information

Check all that apply

- \_\_\_\_\_ Offeror is authorized to submit a proposal for the specified equipment and can provide the equipment if awarded a contract.
- \_\_\_\_\_ Offeror is a bona fide dealer for the equipment in the proposal.
- \_\_\_\_\_ Offeror is the manufacturer of the equipment in the proposal.

### References

List five (5) references (Arizona School District references preferred), including contact persons and phone numbers. (Please print or type)

	School District	Name of Contact	Phone Number
1.	Peoria Unified School District	Steve Highlen	(623) 486-6006
2.	Superior Unified School District	John Tameron	(520) 827-0080
3.	Tucson Unified School District	Jose Riojas	(520) 225-4883

**Recommended for award**

3D/International, Inc.  
Centennial Contractors Enterprises, Inc.

The recommended vendors submitted the highest scoring proposals using the criteria in the solicitation and the required scoring methodology. Both vendors were determined to be responsible. Pricing was determined to be fair and reasonable for the construction and professional services offered.

The solicitation authorized a multiple award. The committee determined that the recommended dual award constituted the least number of suppliers required to meet the members' needs. Use of Mohave's JOC contracts is growing each year. Currently 2 general contractors perform 84% of the work. It was determined that reducing JOC to a single contractor would not provide timely construction services to the members. It was also determined that the recommended vendors have the ability to satisfactorily respond to the growing use of JOC.

	Division	MD	TP	CM	MP	FW	Avg
<b>Centennial Contractors</b>	General	119.00	119.00	116.50	115.00	120.00	117.90
	<b>3D/I</b>	General	105.00	113.75	111.50	105.00	118.00
<b>Kinetic Systems</b>	Div. 15	104.70	104.70	96.70	97.70	107.70	102.30
<b>American Conditioned Air</b>	Div. 15	103.00	98.00	97.00	98.00	115.00	102.20
<b>Russell AC</b>	Div. 15	96.70	96.70	91.20	93.70	102.70	96.20
<b>Corbins Electric</b>	Div. 16	99.00	102.00	95.50	104.00	110.00	102.10
<b>American Conditioned Air</b>	Div. 16	100.75	95.75	94.25	95.75	102.75	97.85

**Not recommended for award**

**Adaptive CM, LLC:** This vendor's bid bond was less than the specified amount. The proposal was rejected in accordance with statute and the procurement rules.

**American Conditioned Air:** This vendor's proposal scored lower than the recommended vendors. There were no apparent price or performance requirements to substantiate award of the lower scoring proposal for a specialty contract.

**Corbin's Electric:** This vendor's proposal scored lower than the recommended vendors. There were no apparent price or performance requirements to substantiate award of the lower scoring proposal for a specialty contract.

**Electrical Excellence, Inc.:** This vendor's bid bond was less than the specified amount. The proposal was rejected in accordance with statute and the procurement rules.

**Kintic Systems:** This vendor's proposal scored lower than the recommended vendors. There were no apparent price or performance requirements to substantiate award of the lower scoring proposal for a specialty contract.

**Russell AC:** This vendor's proposal scored lower than the recommended vendors. There were no apparent price or performance requirements to substantiate award of the lower scoring proposal for a specialty contract.
