Phase 2 of QUAIL CROSSING BLVD. EXTENSION is on schedule to be complete in early 2023. Ashton Company's drilling subcontractor, Michels, is installing the Pier 1 rebar cage for the new Low-Flow Bridge across the Santa Cruz River (see photo). This is the final phase of the two-lane roadway and when complete, will provide improved access for many Sahuarita residents to our Town's businesses and amenities.

RECYCLING Grease, Trees and Electronics – Another Successful Year for Sahuarita

Sahuarita residents exceeded last year's collection of fats, oils and grease (FOG) by 20+ gallons for a total of 165 gallons collected. Thank you for helping to keep FOG out of our pipes preventing clogged sewer lines that cause sewer backups, overflows and damage.
