Re: Billing Rates

Dear Darryl:

It is time for us to establish new billing rates for the services we provide to the City of Litchfield Park. Just about eight years have elapsed since our Company began serving the City and four years have elapsed since we last adjusted our billing rates. We certainly appreciate this ongoing opportunity to provide you with quality engineering services.

Attached is a revised compensation schedule, which is Exhibit C to the Agreement for Engineering Services.

We remain committed to allocating our professional resources in order to provide you with the most effective and efficient services. Please call me if you ever have any questions or comments regarding our services or our invoices.

Sincerely,

A handwritten signature in cursive script, appearing to read 'W. Scoutten'.

Councilmember Mahoney moved to adopt the appropriation amounts as presented; Councilmember Landis seconded; unanimous approval.

B. City Engineering Service Fee Schedule Adjustment

Mr. Crossman said that, according to a comparison that had been prepared, he finds the new fee request to be in line with fees charged to W.C. Scoutten's other city clients.

Councilmember Mahoney moved to approve City Engineer Service Fee Schedule Adjustment as requested; Councilmember Blake seconded; unanimous approval.

C. Perimeter Wall Rejuvenation Project – Change Order

Mr. Diogenes said the Perimeter Wall Rejuvenation Project is underway and entails many different aspects. There is an area located near to where they are working at the southwest corner of Villa Nueva and Camelback that is in need of rehabilitation. It would make sense to take care of this section at the same time, since the contractor is already out there.

Councilmember Landis moved to approve the Perimeter Wall Rejuvenation Project Change Order in the amount of \$11,438; Councilmember Romack seconded; unanimous approval.

D. Amendment to the Intergovernmental Agreement with the Arizona Department of Transportation Related to the Underpass Construction for Additional Pavement Resurfacing

Mr. Crossman said that, initially, the contract included resurfacing the intersection of Wigwam Boulevard and Litchfield Road. ADOT has agreed to extend the full pavement replacement up to the area where there are some utility cuts across Litchfield Road. They were asked if they could also do the area indicated on the map as the intermediate section, and the Village Parkway section as part of the contract. However, there is not enough funding in the contract to do both. If the City were to pay, the cost would be \$97,000 for all, with about \$67,000 for the intermediate area. Staff thought it could be done for \$36,000 as part of the contract. Mr. Diogenes said that \$50,000 was requested in order to leave a buffer because \$36,000 would use up all of the contingency funds. However, this afternoon, ADOT has said that the intermediate area could not be funded, and they are still discussing the Village Parkway intersection. Any City-funded portions cannot be added to the ADOT contract.

Mayor Schoaf said it would seem to make sense to repair the road all the way through the Village Parkway intersection while the other work is being done. Mr. Crossman said that it might be possible to have a separate contract between the paving contractor and the City.

Councilmember Blake moved to authorize the City Manager to amend the ADOT contract to add up to \$75,000 for additional paving between the intersection of Village Parkway along Litchfield Road and, if it cannot be added to the contract, up to \$75,000 may be used to pay the contractor to do the additional work; Councilmember Romack seconded. After short discussion, the motion was approved unanimously.

CITY OF LITCHFIELD PARK COUNCIL COMMUNICATION

City Engineering
Services Fee
Schedule
Adjustment

TO: Mayor Thomas L. Schoaf and Members of Council
FROM: Darryl H. Crossman, City Manager
THROUGH: N/A
MEETING DATE: June 19, 2013
SUBJECT: City Engineering Services Fee Schedule Adjustment

RECOMMENDED MOTION

APPROVE AMENDMENT #2 OF THE AGREEMENT FOR ENGINEERING SERVICES BETWEEN THE CITY OF LITCHFIELD PARK AND W.C. SCOUTTEN, INC. ESTABLISHING NEW BILLING RATES FOR ENGINEERING SERVICES EFFECTIVE JULY 1, 2013.

BACKGROUND / DISCUSSION

On May 23, 2005, Litchfield Park City Council approved an Agreement for City Engineering Services with W.C. Scoutten, Inc. as its City Engineer. The fee schedule was amended in September, 2008 with a 10% increase. Since 2008, the engineering fees have remained the same. Woody Scoutten has proposed a revised compensation schedule (which is attached) which reflects an 8% increase for engineering staff services.

After a review of the proposed fee schedule revision, and in consideration of the quality engineering services provided over the eight plus years as our City Engineer, I have concluded that the proposed fee schedule is fair and reasonable.

FINANCIAL IMPACT

Since the fee schedule is based on professional service hours required, the financial impact cannot be quantified. However, I believe that the \$125,000 in the FY 2014 budget will be able to absorb the proposed increase barring any unexpected need for engineering services.

STAFF RECOMMENDATION

It is recommended that Council approve Amendment #2 of the Agreement for Engineering Services between the City of Litchfield Park and W. C. Scoutten, Inc. establishing new billing rates for engineering services effective July 1, 2013.

AGREEMENT FOR ENGINEERING SERVICES (CITY ENGINEER)

THIS Agreement is entered into as of this 23RD day of MAY, 2005, by and between the City of Litchfield Park, Arizona, a municipal corporation, hereinafter referred to as the "City" and W.C. Scoutten, Inc., an Arizona corporation, hereinafter referred to as the "Engineer."

In consideration of the mutual promises contained in this Agreement, the City and Engineer agree as follows:

1. SERVICES AND RESPONSIBILITIES

1.1 Retention of the Engineer. City appoints Engineer as its City Engineer and engages the Engineer to render professional engineering services on an "as needed" basis, in accordance with all the terms and conditions contained in this Agreement. Engineer is available to and is qualified to perform the services set forth on Exhibit A (the "Services"); provided, however, that Engineer shall not undertake such Services except in accordance with Paragraphs 1.3 and 1.3.1.

1.2 City Engineer/Project Manager. W. C. Scoutten is appointed Project Manager. Appointment of a different Project Manager shall first be approved by the City.

1.3 Scope of Services. The Engineer shall do, perform and carry out in a satisfactory and proper manner, as determined by the City, the Services as set forth in individual Authorizations for Services. A form of Authorization for Services is attached hereto as Exhibit B. City shall notify Engineer in writing of Services to be performed by execution of an Authorization for Services. Delivery of an Authorization for Services shall constitute Engineer's authorization to proceed with the Services described in such Authorization.

1.3.1 Services not anticipated to exceed six (6) hours of Engineer's time may be performed without a written Authorization for Services so long as the City Manager or City Liaison has given verbal directions to proceed. Any request anticipated to take more than six (6) hours of the Engineer's billable time, shall be accompanied by a signed Authorization for Services. If the billable hours for a project cannot be determined prior to its commencement, a signed Authorization for Services must be submitted to the City as soon as six (6) hours of the Engineer's time is logged. Services shall not proceed in excess of six (6) hours on such project until City has executed the Authorization for Services.

1.3.2 The City Manager may appoint one member of the Public Works Department to serve as a liaison with the Engineer concerning final inspections of public works projects. This individual will be supervised by the Director of Public Works. If an Authorization for Services is executed between the parties, the Engineer will train this City employee on matters related to project specifications review and, ultimately, field inspection in accordance with Paragraph 3 of this Agreement. It is the intent to have this employee serve as field inspector for the City and the Engineer.

1.4 Responsibility of the Engineer.

1.4.1 Engineer hereby agrees that any Contract Documents, specifications or other documents prepared by Engineer pursuant to this Agreement and any Authorizations for Services, will fulfill the purposes of the Services authorized and shall meet all applicable legal requirements. In addition, and not as a limitation on the foregoing, such Contract Documents, specifications or other contract documents prepared by Engineer shall be prepared in accordance with professional engineering standards. Any review or approval of such Contract Documents, specifications or other document given by City shall not diminish these requirements.

1.4.2 Engineer shall obtain consent for City for any subcontractor it may retain to perform Engineering services under this Agreement

1.4.3 Engineer shall obtain its own legal, insurance and financial advice regarding Engineer's legal, insurance and financial obligations under this Agreement.

1.5 Responsibility of the City. The City shall cooperate with the Engineer by placing at his disposal all available information concerning any Authorization for Services, including all assistance in obtaining necessary access to public and private lands. City agrees to obtain its own legal, insurance and financial advice City may require for the Services.

1.6 Time of Performance. Time of performance shall be set forth in each Authorization for Services.

1.7 Safety Warranty. Engineer warrants that it is aware of and understands the hazards which are presented to persons, property and the environment relating to, and arising out of the Services. In the event Engineer or Engineer's subcontractor is working or operating in an unsafe matter, Engineer will immediately take full and appropriate steps to assure the safety of those providing services on behalf of Engineer.

1.9 Insurance.

1.9.1 Engineer agrees to comply with all City ordinances and state and federal laws and regulations in effect at the time the Services are rendered. Without limiting any obligations or liabilities of Engineer, Engineer shall purchase and maintain, at its own expense, hereinafter stipulated minimum insurance with insurance companies duly licensed by the State of Arizona (admitted insurer) with an AM Best, Inc. rating of A-7 or above or an equivalent qualified unlicensed insurer by the State of Arizona (non-admitted insurer) with policies and forms satisfactory to the City. Failure to maintain insurance as specified may result in termination of this Agreement at City's option.

1.9.2 By requiring insurance herein, City does not represent that coverage and limits will be adequate to protect Engineer. City reserves the right to review any and all of the insurance policies and/or endorsements cited in this Agreement but has no obligation to do so. Failure to demand such evidence of full compliance with the insurance requirements set forth in

this Agreement or failure to identify any insurance deficiency shall not relieve Engineer from, nor be construed or deemed a waiver of, its obligation to maintain the required insurance at all times during the performance of this Agreement.

1.9.3 All insurance coverage and self-insured retention or deductible portions, except Workers Compensation insurance and Professional Liability insurance, shall name, to the fullest extent permitted by law for claims arising out of the performance of this Agreement, City, its agents, representative, officers, directors, officials and employees as Additional Insured as specified under the respective coverage sections of this Agreement.

1.9.4 All insurance required herein shall be maintained in full force and effect until all Services required to be performed under the terms of this Agreement is satisfactorily performed, completed and formally accepted by the City, unless specified otherwise in this Agreement.

1.9.5 Engineer's insurance, except Workers' Compensation and Professional Liability, shall be primary insurance. All insurance, except Workers' Compensation and Professional Liability, shall provide protection of the City as an Additional Insured.

1.9.6 In the event any insurance policies required by this Agreement are written on a "claims made" basis, coverage shall extend, either by keeping coverage in force or purchasing an extended reporting option, for three (3) years past completion and acceptance of the Services evidenced by submission of annual Certificates of Insurance citing applicable coverage is in force and contains the provisions as required herein for the three year period.

1.9.7 All policies, except Workers' Compensation Insurance and Professional Liability insurance, shall contain a waiver of rights of recovery (subrogation) against City, its agents, representative, officials, directors, officers, and employees for any claims arising out of the Services of Engineer. Engineer shall arrange to have such subrogation waivers incorporated into each policy via formal written endorsement thereto.

1.9.8 The policies set forth in these requirements may provide coverage, which contain deductibles or self insured retention amounts. Such deductibles or self insured retention shall not be applicable with respect to the policy limits provided to City. Engineer shall be solely responsible for any such deductible or self insured retention amount. City, at its option, may require Engineer to secure payment of such deductible or self insured retention by a surety bond or irrevocable and unconditional Letter of Credit.

1.9.9 If any Services under this Agreement are subcontracted in any way, Engineer shall execute written agreement with Subcontractor containing the same Indemnification Clause and Insurance Requirements set forth herein protecting City and Engineer. Engineer shall be responsible for executing the agreement with Subcontractor and obtaining Certificates of Insurance verifying the insurance requirements.
